

N40 Works

Progress Update/Reminder – 29th of June 2018

Reminder in relation to works at the Sarsfield Roundabout area this weekend:

The section of the Sarsfield Road Roundabout shown coloured red on the attached plan will be closed to traffic from 9pm this evening. The purpose of the closure is to facilitate urgently required pavement remedial works in this section of the roundabout circulating carriageway. The works are being progressed at the weekend in order to minimise disruption to commuters and will also be progressed on a 24-hour basis in order to ensure that the road is reopened as quickly as possible.

We hope to complete the works by around 6.30pm on Sunday the 1st of July 2018 and it is possible that one/two lanes will be reopened earlier on Sunday. A route through the works area will be maintained at all times but traffic will generally be diverted via the Bandon Road Roundabout, the blue route shown on the attached map. Some delays are inevitable during busy periods on Saturday and early on Sunday and motorists are advised to take an alternative route where possible.

If there are any queries or comments in relation to these works please contact us on (021)4520180 or on this email address.
