Dunkettle Interchange Project - Advance Works

Upgrade Dunkettle to a largely free-flow interchange to alleviate traffic congestion.

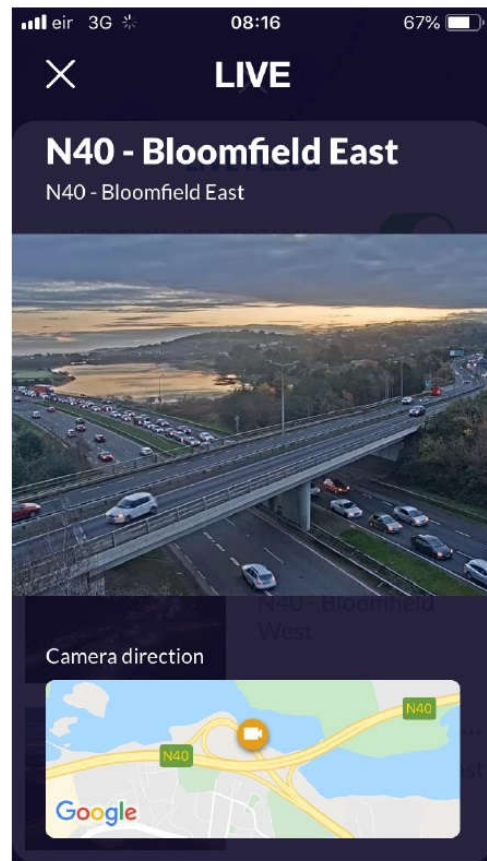

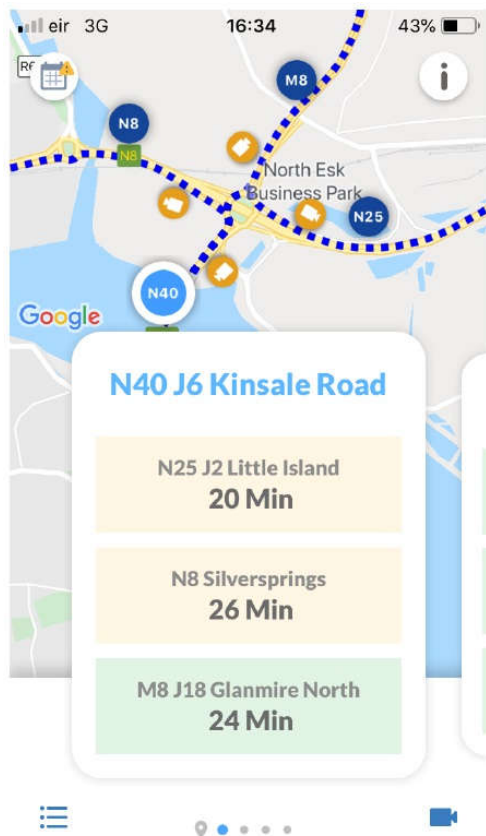

Dunkettle Interchange Upgrade: Access road construction, south of N25

- Works are now underway on the construction of a reinforced concrete protection slab for a section of the existing gas transmission main between the Pfizer northern boundary and the N25 National Primary Road. The photograph above shows works ongoing on the construction of an access road to the main works area. Piling works at this location are scheduled to get underway in January 2020 and we hope to have the protective slab in place by April 2020.
- Installation of service ducting is ongoing in a number of areas of the site. The main focus at present is on the installation of ESB ducting in the area immediately east of the M8, adjoining the Gaelscoil Uí Drisceoil boundary – see photograph below.
- Preparatory works for the proposed pedestrian and cycleway rail overbridge near Bury's Bridge are now underway. These works will continue over the coming period. The main bridge structure is being prefabricated on site and we hope to place this structure on prepared reinforced concrete bases during April 2020.
- No significant disruption to traffic is anticipated over the upcoming Christmas holiday period and further details will follow in the normal way in future updates.

Dunkettle Interchange Project - Dunkettle Live Traffic App

- The traffic app **Dunkettle Live** is now available as a free download on the [Apple App store](#) and on the [Google Play store](#).
- The app has now been downloaded by well over 5,000 users since its release on Monday 2nd December 2019. It has obtained a 5 star rating to date on the Apple App store and we hope that the app will continue to be well received and that usage of the app will increase significantly over the coming weeks.
- A short video demonstrating the app can be viewed at: [Dunkettle Live App Preview](#).
- We would welcome any comments in relation to the app – please forward any comments to roadconstruction@ccc-site.com

As always, if there are any queries or comments in relation to these works, please contact us at:

Phone: 1800 810077 (at any time),
Email: roadconstruction@ccc-site.com.
