

# Dunkettle Progress Update

*7th February 2020*

[More Information at www.Dunkettle.ie](http://www.Dunkettle.ie)

## Dunkettle Interchange Project - Advance Works

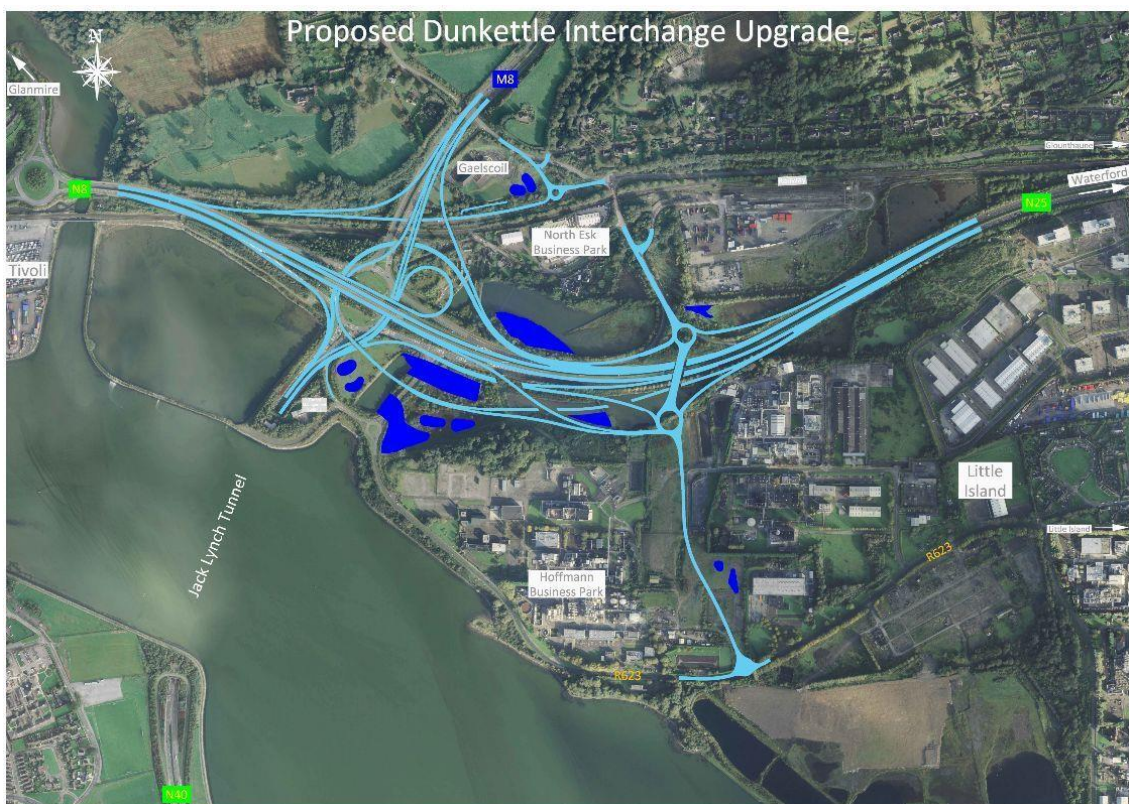

Twitter

Website

*Upgrade Dunkettle to a largely free-flow interchange to alleviate traffic congestion*

- Embankment construction is continuing for the construction of a free flow link road from the N8 (Lower Glanmire Road Outbound from Cork City) to the M8 (Dublin Motorway Northbound) in the area immediately west of the M8.
- As shown in the photograph below, a hard shoulder closure is currently in place on the M8 northbound to facilitate construction works associated with the cycle/pedestrian route northern end tie-in adjacent to the N8 to M8 Cork to Dublin road link – no significant disruption to traffic is anticipated.

- Works have commenced adjacent to the Gaelscoil Uí Drisceoil consisting of topsoil stripping and embankment construction for the proposed roundabout on the Richmond Road.
- In the North Esk area, south of the railway line, diversion works for the 600mm diameter watermain are ongoing.
- Works for the reinforced concrete gas protection slab to the existing gas transmission main are continuing north of the Pfizer northern boundary.
- Traffic management will be installed this coming Sunday night, 9th February 2020, in advance of preparatory works commencing at the Dunkettle Roundabout at the end of the Lower Glanmire Road. These works will include site clearance and preparatory works for footpaths and kerb realignment. No significant disruption to traffic is anticipated as a result of these works.
- Further details of the works above and additional upcoming works will continue to be provided via the weekly updates.

## **Dunkettle Interchange Project - Dunkettle Live Traffic App**

Link to video: [Dunkettle Live app](#)

Dunkettle Live App: Download from [Apple App store](#) or from [Google Play store](#)

- The traffic app Dunkettle Live is available as a free download on the [Apple App store](#) and the [Google Play store](#)
- The App has over 7,000 downloads to date. We hope that usage of the App will continue to increase over the coming period as people become increasingly aware of the free availability of real time traffic information on all approaches to the Dunkettle Interchange and its potential to assist the travelling public and commuters with flexible working arrangements to re-schedule their journeys through the interchange to avoid peak traffic periods.
- Dunkettle Live was developed in advance of the main construction works to provide motorists with real-time traffic information accompanied by live video streaming from the main approaches to the Dunkettle Interchange and live journey times through the junction, to and from all of the major routes: M8, N40, N25, N8.
- The video above demonstrates the main features of the app.
- As always, we would welcome any comments in relation to the app to [roadconstruction@ccc-site.com](mailto:roadconstruction@ccc-site.com).

As always, if there are any queries or comments in relation to these works, please contact us at:

**Phone:** 1800 810077 (at any time),  
**Email:** [roadconstruction@ccc-site.com](mailto:roadconstruction@ccc-site.com).

Further information on the Dunkettle Scheme can be accessed at: [www.dunkettle.ie](http://www.dunkettle.ie).

Real time traffic information can be accessed via [www.dunkettletraffic.ie](http://www.dunkettletraffic.ie) or on the Dunkettle Live App ([Apple App store](#) and [Google Play store](#)).
