Dunkettle Interchange Upgrade Project

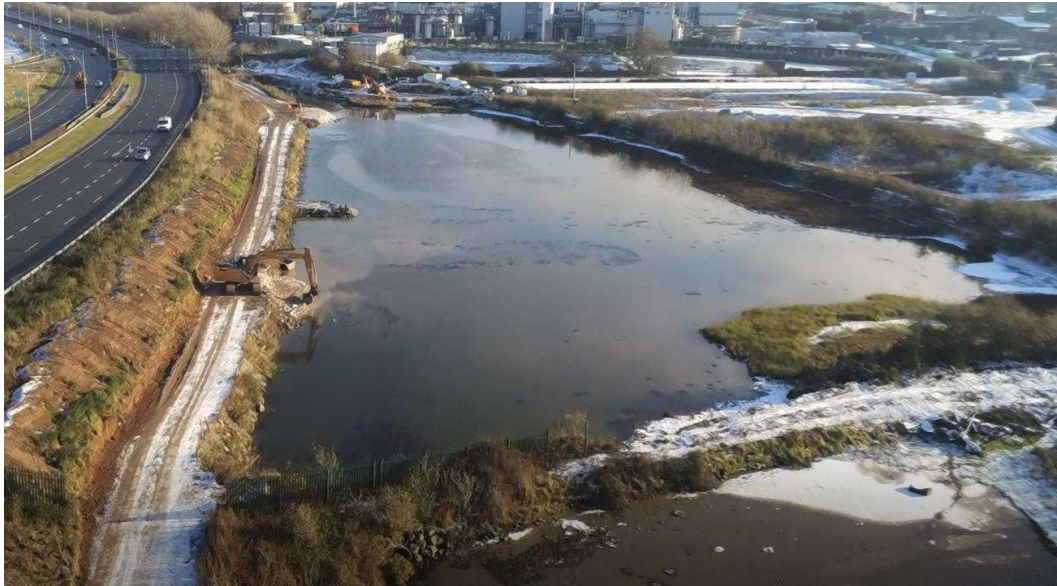

Upgrade Dunkettle to a largely free-flow interchange to alleviate traffic congestion.

- Ground investigation works are continuing in the traffic island at the N25 eastbound off/on slips at Bury's Bridge. See photograph below.
- Piling works will get underway at this location in association with the new Interchange Bridge before the end of January 2021.

Ground investigation rig progressing an assessment of ground conditions at depth in the Bury's Bridge area

- A number of new bridges are also required as part of the new alignment in the area south of the N25. Piling works will get underway in this area during week commencing Monday 11th January 2021. See photograph below.

Piling platforms under construction to facilitate installation of test piles at proposed new bridge locations south of the N25

- Installation of a protection slab at the gas transmission main immediately north of the Upjohn premises will continue to the end of January 2021. See photograph below.

Preparations for placing of protective slabs nearing completion, south of the N25

- Daytime works over the coming week will be almost entirely off-line with no disruption to traffic anticipated as a result of our works.

N40 Intelligent Transport Systems

Installation of gantry mounted Variable Message Signs and other infrastructure to display traffic information such as journey times.

- Works associated with installation of new Intelligent Transport Systems equipment on the Glanmire Regional Road are continuing. See photographs below.

Ongoing ITS works on the Glanmire Regional Road

- ITS works will also continue on the N40 over the coming week. Works here will be progressed largely under night time working with no disruption to traffic anticipated as a result of the works.
