Website

Dunkettle Interchange Upgrade Project

- Works will recommence on the proposed new Structure north of the Jack Lynch Tunnel ST05, this will involve a slight relocation of the southbound lanes of the N40 between the Dunkettle Interchange Roundabout and the Jack Lynch Tunnel.

Works being progressed at the location of ST05 offline.

- We are intending to place the beams at Structure ST07 under night time working on the night of Thursday 13th January 2022 taking advantage of the scheduled Jack Lynch Tunnel closure. Local diversions will be in place from 21:00 on Thursday night until 05:00 on Friday morning – see photograph below.

Works being progressed at the location of ST07 offline ahead of the upcoming beam placement.

- Further traffic switches are likely over the coming weeks and details in relation to the same will be issued as part of the upcoming newsletters.
- Overall, works remain well on track for completion for the due date of 29th March 2024.

Please see hereunder link of recent drone footage showing the ongoing works on the new M8 SB section of the Dunkettle Interchnage Upgrade Scheme:

Dunkettle Live Traffic App

- Motorists are again reminded of the availability of the “***Dunkettle Live***” traffic app. In addition to live camera feeds, real time journey duration information is also available for all of the main routes approaching the Dunkettle Interchange Roundabout.
