## Dunkettle Interchange Upgrade Project

- Embankment construction for proposed links K, L, M , P and for the Southern roundabout of the new eastern interchange will continue over the coming months- see photograph below.

**Embankment construction ongoing south of the N25.**

- Column construction works at Structure St05 will be getting underway over the coming days in the area immediately adjacent to the Southbound approach to the Tunnel.
- Traffic management arrangements associated with opening of Structure St 08 and with permanent opening of the first link roads of the new alignment to come into service are currently being finalised. Details will be set out in an additional update on next

Monday 24th January.

- Bridge deck works will continue on structures St06 and St07 over the coming weeks- see photograph below.

**Works ongoing at St06.**

- Construction of the cycleway / walkway adjoining the Dunkettle local road are progressing well – see photograph below.

Cycleway Works ongoing.

Please see hereunder link to recent drone footage showing the ongoing works on the deck of ST01:

# Dunkettle Live Traffic App

- Motorists are again reminded of the availability of the “**Dunkettle Live**” traffic app. In addition to live camera feeds, real time journey duration information is also available for all of the main routes approaching the Dunkettle Interchange Roundabout.

The screenshot shows a web browser window with the URL <https://www.dunkettetraffic.ie>. The page title is "Dunkettle interchange". The main heading is "JOURNEY TIMES". Below this is a section titled "LATEST" containing a table with journey duration information.

From	To	Travel time (minutes)
M8 J18 Glanmire North	N40 J6 Kinsale Road	14 minute(s)
M8 J18 Glanmire North	N8 Silversprings	14 minute(s)
M8 J18 Glanmire North	N25 J2 Little Island	11 minute(s)
N25 J2 Little Island	N8 Silversprings	5 minute(s)
N25 J2 Little Island	N40 J6 Kinsale Road	7 minute(s)
N25 J2 Little Island	M8 J18 Glanmire North	9 minute(s)
N40 J6 Kinsale Road	M8 J18 Glanmire North	12 minute(s)

# N40 Intelligent Transport Systems

*Installation of gantry mounted Variable Message Signs and other infrastructure to display traffic information such as journey times.*

Works in relation to the ongoing ITS works will continue as follows:

- Commissioning of the new Overheight Vehicle Detection System south of the Jack Lynch Tunnel Tunnel has continued over the past week. The photo below shows lane control signs under test where

the detection of an overhead vehicle prompts the display of advisory speed limits on the approach to the tunnel.

**Electronic Signage under test on eastbound N40 approach to Jack Lynch Tunnel.**

- A tunnel closure is scheduled next week for the installation of large Variable Message Signs over both the north and south portals of the tunnel. This represents a significant upgrade of the safety infrastructure directly in advance of the Jack Lynch Tunnel.
- In order to minimise disruption to motorists, a large amount of other ITS works are scheduled to coincide with this closure, including the installation of traffic signals and Over-Height Vehicle Detectors (OHVDs) on the N40 approach to the tunnel.
- Electronic Variable Message Signs will also be installed on the new gantry between the Bloomfield and Mahon junctions over both the

eastbound and westbound carriageways, over Monday to Thursday nights next week. The works have been planned to avoid closure of the N40 carriageway at any stage but traffic will be reduced to one lane.

---

As always, if there are any queries or comments in relation to these works, please contact us at:

**Phone:** 1800 810077 (at any time), **Email:** [roadconstruction@ccc-site.com](mailto:roadconstruction@ccc-site.com).
