## Dunkettle Progress Update *15th April 2022*

Twitter

Website

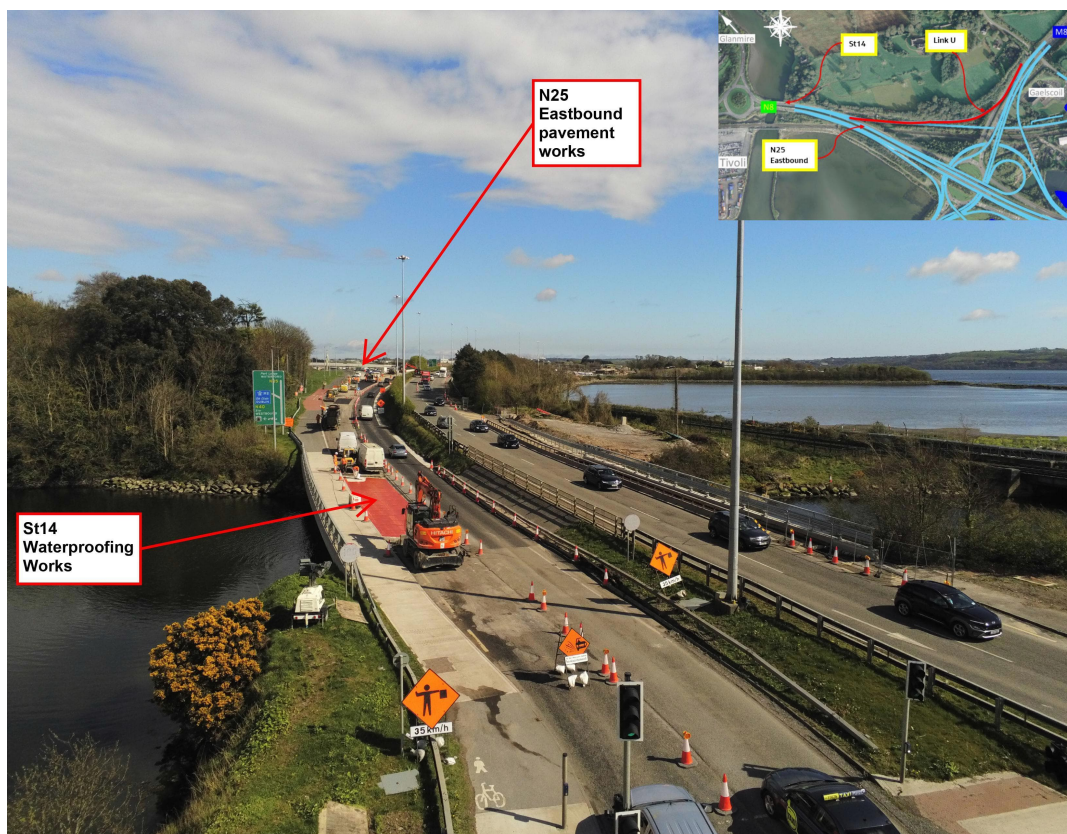

As expected, the first concrete pour at Structure St11 and the bridge deck at Structure St05 have been completed as per the photograph below.

St05 bridge deck pour ongoing alongside the N40 southbound.

Lane restrictions on the N25 eastbound in the area between the Glanmire Roundabout and the Dunkettle Interchange Roundabout will be removed later today, Friday 15th April 2022. The photo below shows the waterproofing at St14 complete in advance of the final surfacing works for the new road alignment. The patience shown by motorists impacted by the lane restrictions over the last week or so is greatly appreciated.

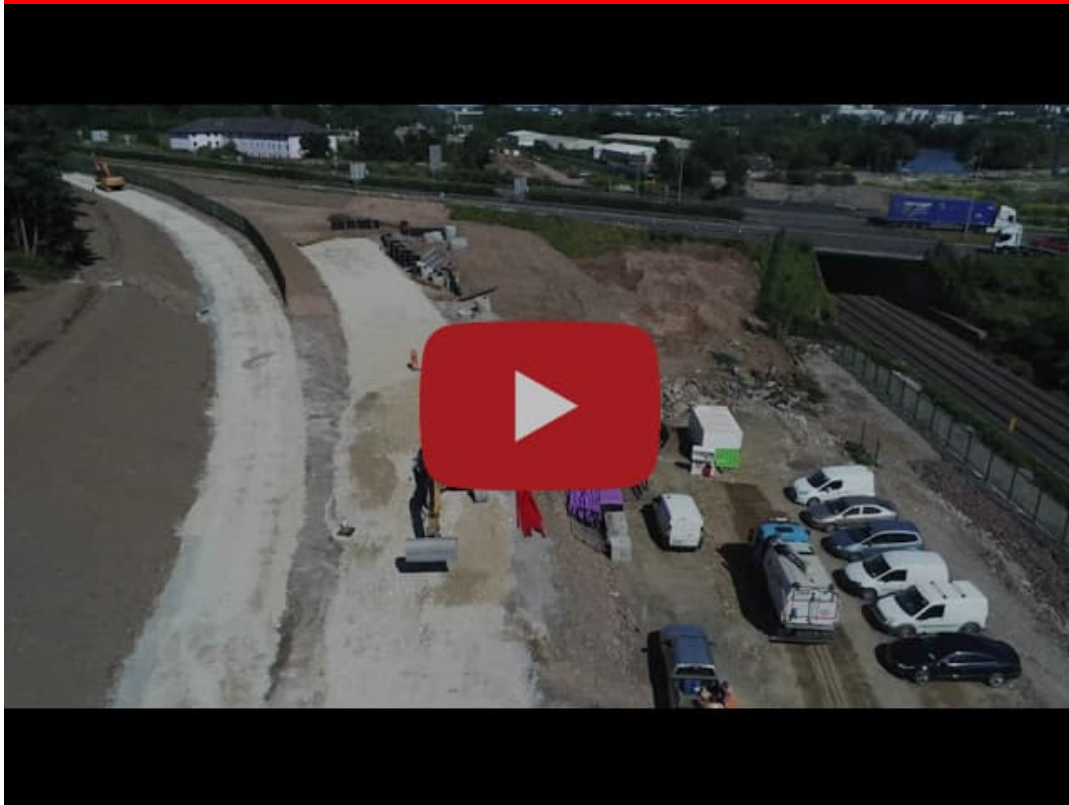

Waterproofing works at St14 on the N25 eastbound.

As set out in last weeks update, we still hope to open Link U (highlighted in red on the plan above) during W/C 18th April 2022 – we now expect that the link road will open on Friday 22nd April or Saturday 23rd April 2022. The video link below shows the progression of the construction of Link U since the site clearance stage.

Definitive details in relation to the opening of Link U will be issued next week.

**Progression of Link U construction - N25 eastbound to M8 northbound free flow Link.**

## N40 Intelligent Transport Systems

*Installation of gantry mounted Variable Message Signs and other infrastructure to display traffic information such as journey times.*

Works this week focused on commissioning the new Over-Height Vehicle Detection (OHVD) equipment on the N40 approach to the tunnel during the scheduled tunnel maintenance closure. These works will continue by day next week, at various approach roads to Dunkettle

and the N40 with no impact on traffic

Testing of new barrier and road studs system at the N40 eastbound on-slip from Mahon.

As always, if there are any queries or comments in relation to these works, please contact us at:
