

Dunkettle Progress Update

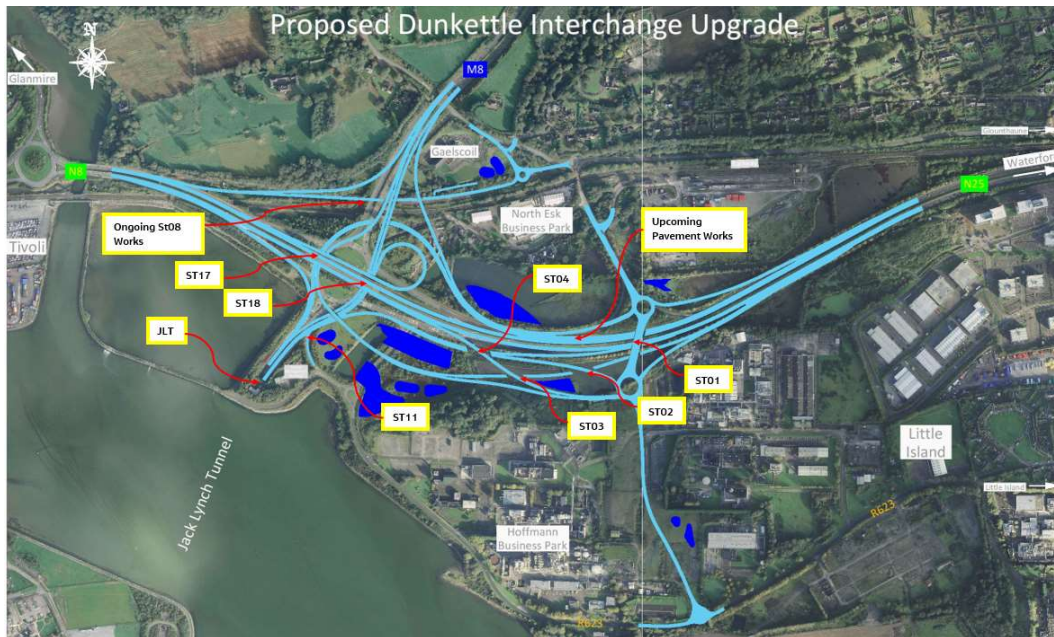

20th May 2022

Twitter

Website

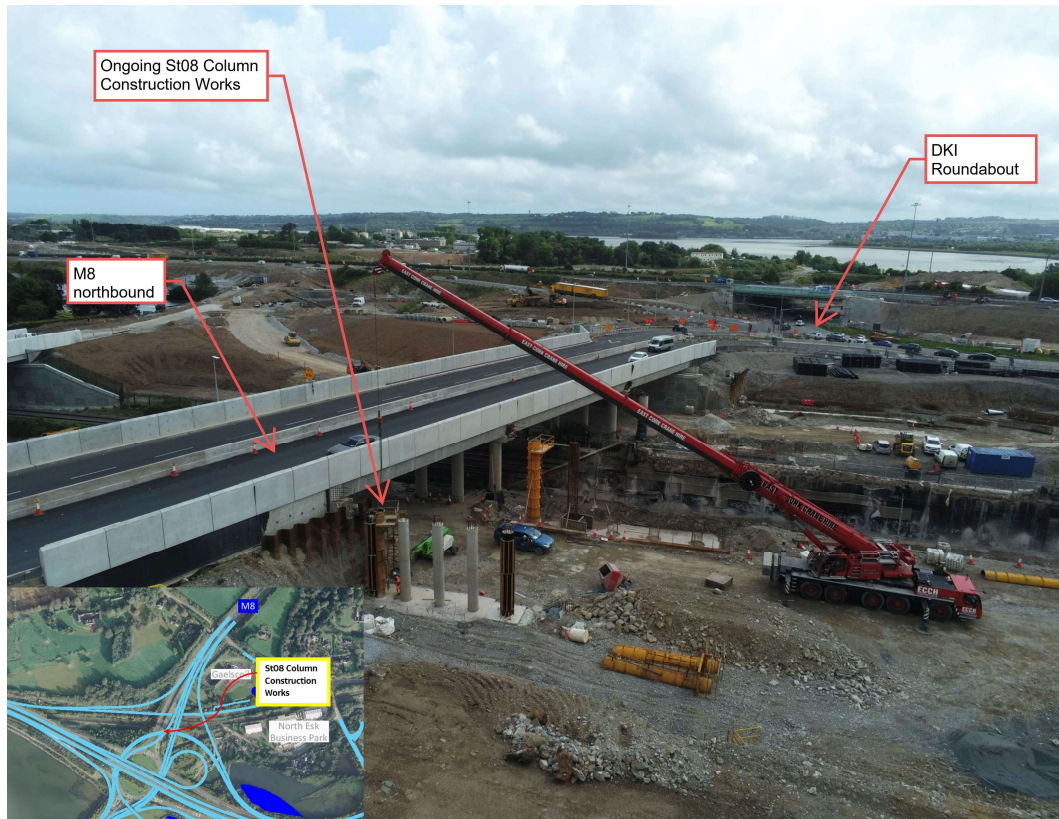

- Works are continuing across the site at all structures and embankment construction areas.

- Commuters will have noticed the ongoing works associated with the retaining walls to be completed as part of Structure St11 in the section of the N40 immediately north of the Jack Lynch Tunnel – see photograph below. These works will continue throughout the summer months offline with no major impact on traffic as a result.

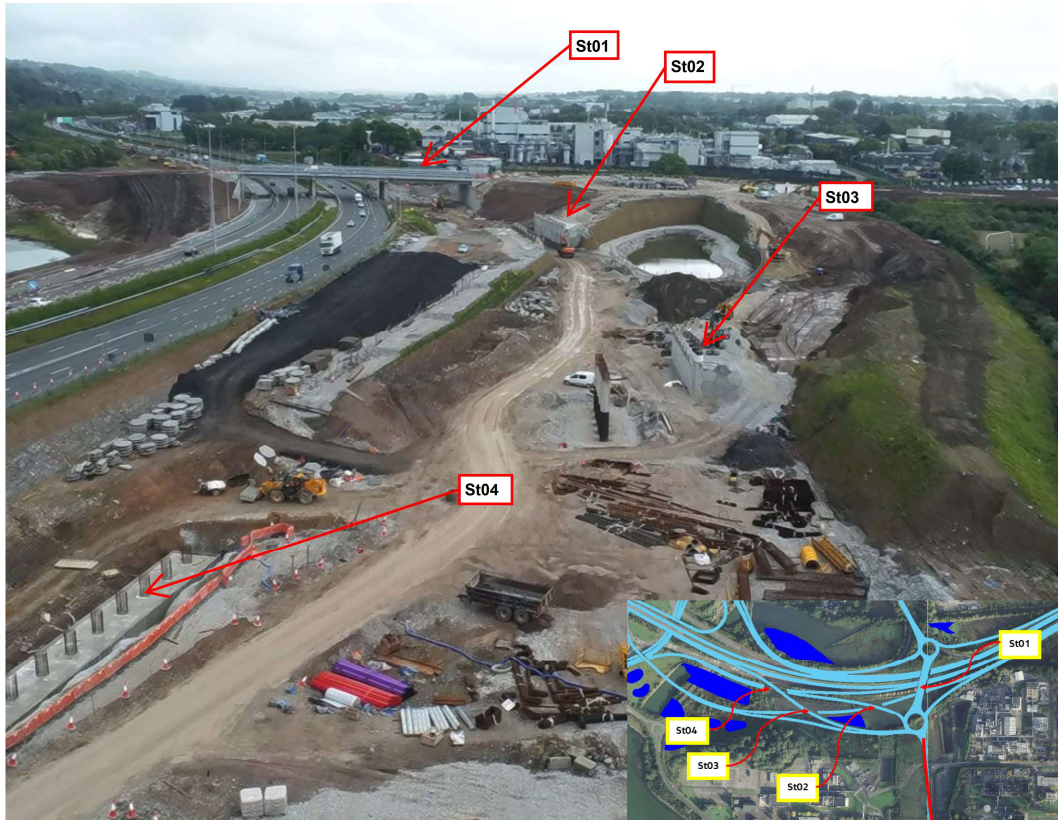

Concrete being pumped into position alongside the N40 southbound.

- Column construction works are ongoing at the western section of Structure St08 – see photograph below. Works for this structure will continue for the remainder of this year.

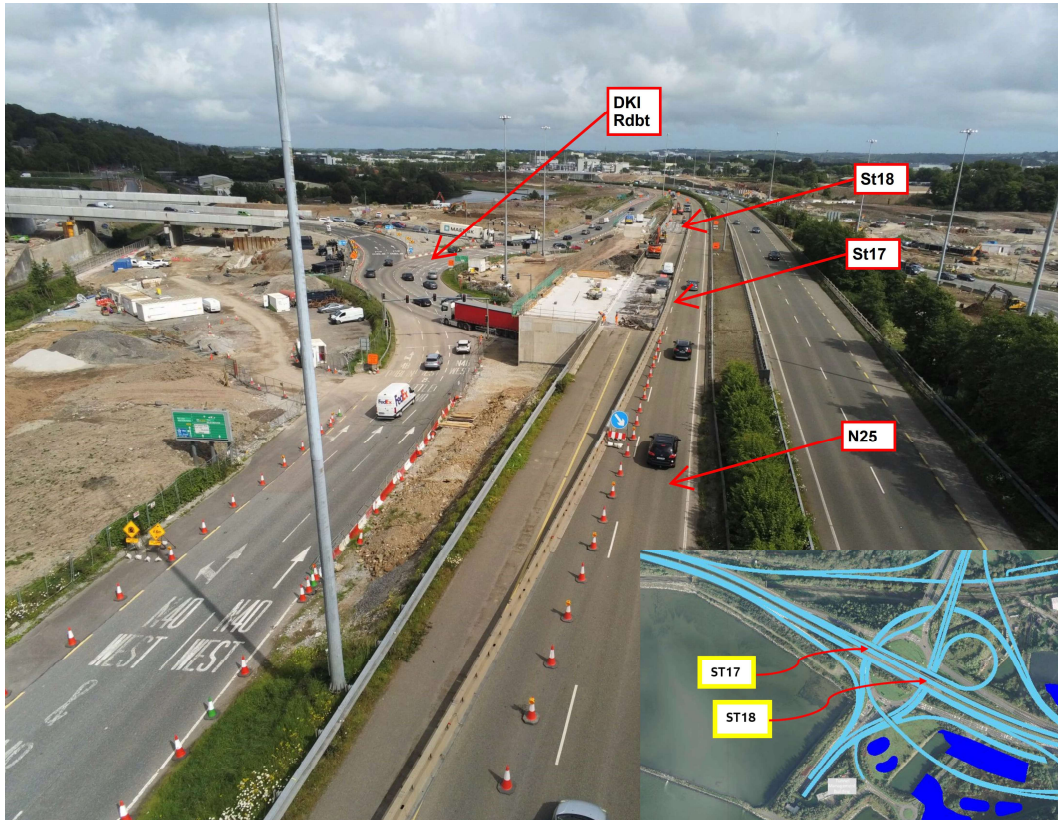

Column construction works ongoing alongside the M8 northbound.

- Works on Structures St02, St03 & St04 are continuing at the southern side of the N25 westbound – see photograph below. It is anticipated that all 3 of the these structures will be completed by the end of this year.

Works ongoing for Structures alongside the N25 westbound.

- New traffic management measures were installed on Tuesday and Wednesday night of this week on the N25 eastbound. This new traffic management layout will facilitate bridge deck waterproofing works at the existing Structures St17 & St18 - see photograph below. It will also facilitate the completion of the pavement works in the vicinity of Structure St01 – see photograph below.

Preparatory works ongoing for waterproofing of the existing structures on the N25 eastbound.

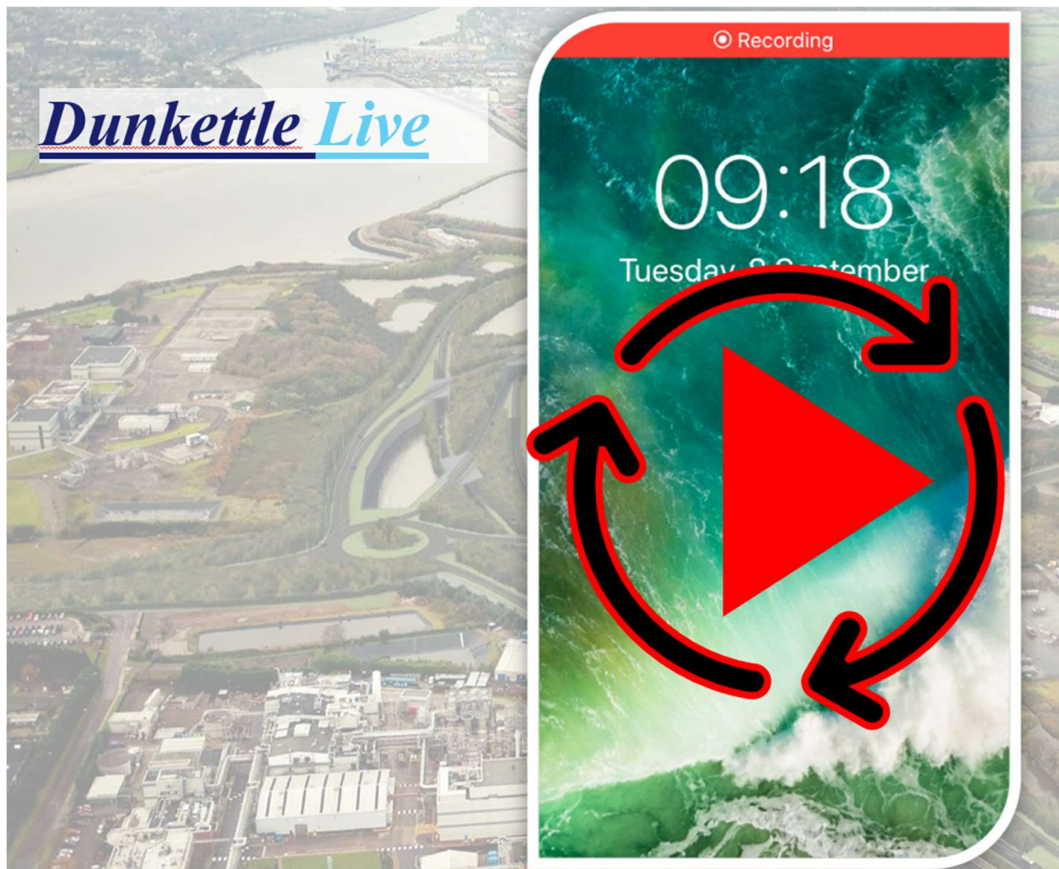

Realigned traffic management layout on the N25 eastbound alongside Structure St01.

This week's progress update shows ongoing works south of N25 from Dunkettle Interchange Roundabout towards Little Island
