

# Dunkettle Progress Update

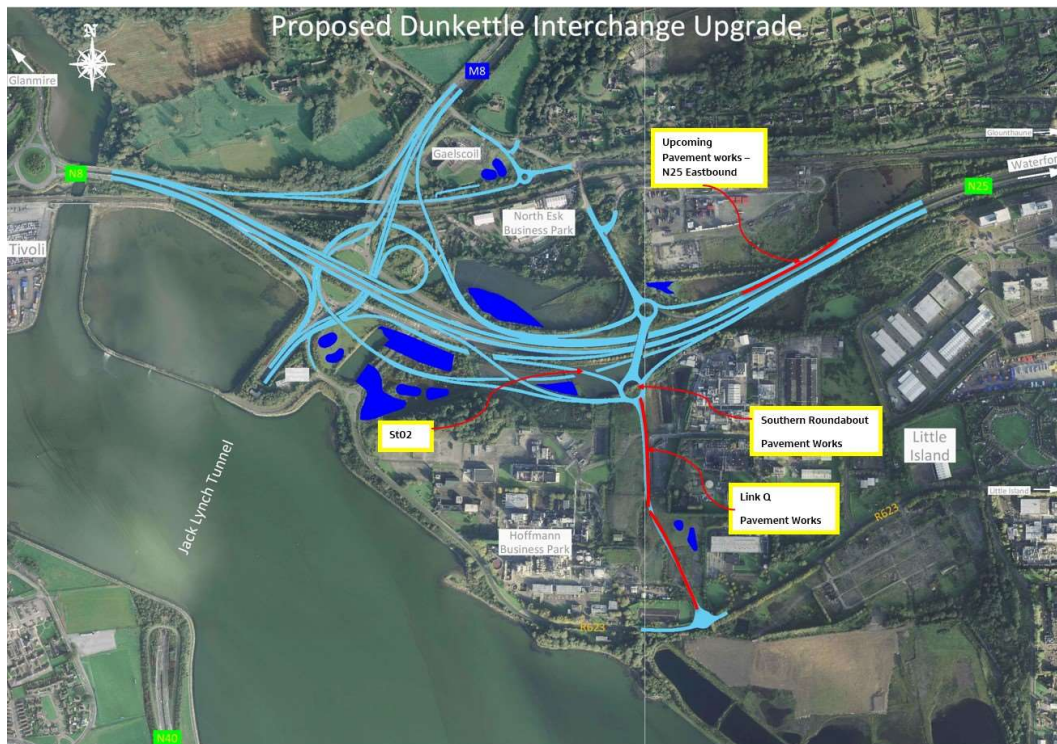

*01st July 2022*

[Twitter](#)

[Website](#)

- Works are continuing across the site at all remaining structures and embankment construction areas. We do not anticipate any traffic disruption as a result of the upcoming works.

- The current phase of surfacing works on Link Q including the Southern Roundabout of the new eastern interchange are at substantial completion – see photograph below.

**Pavement works ongoing at the Southern Roundabout / Link Q area.**

- From a structures point of view, the abutment has been cast at the southern side of Structure St02 and the focus currently is at the northern side of this structure. We still hope to place the beams at Structure St02 by September 2022 – see photograph below.

St02 works ongoing alongside the N25 westbound.

- Upcoming surfacing works on the N25 eastbound will be progressed under night time working in order to minimise disruption to traffic. Details will be provided in future updates – see photograph below.

Preparatory works being completed on the N25 eastbound in advance of the upcoming pavement works.

**This weeks video shows the ongoing pavement works at Link Q along with the current status of Structures St01, St02, St03 & St04**
