

# Dunkettle Progress Update

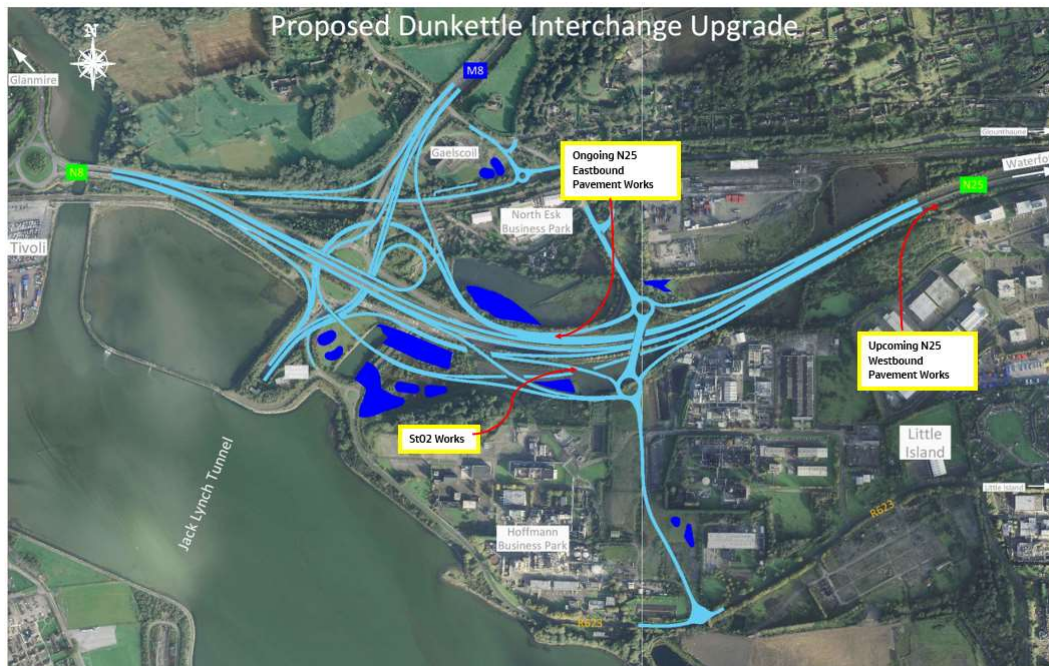

## *29th July 2022*

Twitter

Website

- Motorists are again reminded that the speed control measures will be in place on the Dunkettle Interchange site over the coming months.

- The target date for the placement of the beams at Structure St02 is late August 2022. Preparatory works are currently being progressed – see photograph below.

Works ongoing at St02 alongside the N25 westbound.

- Surfacing Works will recommence on the N25 eastbound on Tuesday 2nd August 2022 and will continue for a number of weeks – see photograph below. Surfacing works will then switch to the N25 westbound and we expect that weekend traffic restrictions will be in place for two weekends during August / September 2022. Details to follow in future updates.

Pavement works ongoing alongside the N25 eastbound.

- Works will not be progressed on site this Bank Holiday weekend.
- In overall terms, works remain on programme for completion by the due date of February 2024.

**This week's video shows the progress being made on the west side of the project between the entrance to the Jack Lynch Tunnel and the M8.**
