

Dunkettle Progress Update

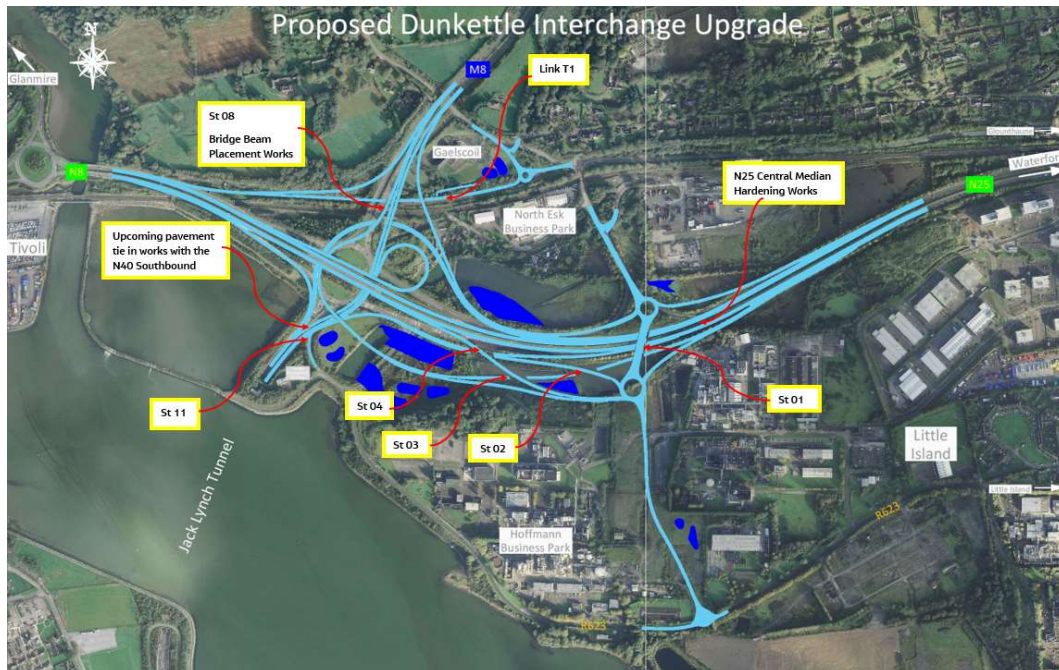

02nd September 2022

Twitter

Website

- Motorists are advised that the speed control van will be on site on a full time basis over the coming weeks.

- From a structures point of view, the Structure ST08 bridge beams were placed at the centre span over the Cork to Midleton railway line and also on the northern span over Link T under night time working this week – see photographs below.

Pre-cast concrete bridge in being place at ST08 west.

Precast concrete beams in place at ST08 west alongside the M8 northbound.

- Works will continue on Structure ST08 over the coming period in parallel with works on the other main Structures ST02, ST03, & ST04 – see photograph below.

Construction of concrete columns ongoing at ST04 alongside the N25 westbound.

- As part of the works, the N25 is being fully resurfaced with the current alignment being adjusted slightly also. As part of this realignment, sections of the central median will become part of the realigned N25 westbound carriageway. Works are currently being progressed in the central median area in the vicinity of Structure St01 in order to construct the road pavement build up and to facilitate the installation of a new drainage system.

Works being progressed within the N25 central median.

- There are a number of night time Jack Lynch Tunnel closures required in order to progress the tie in works at the interface with the N40 southbound. The Jack Lynch Tunnel will be closed in a southbound direction on Tuesday 6th September 2022. The Jack Lynch Tunnel will be closed in both directions on Wednesday 7th & Thursday 8th September 2022 also. The closures will be in place from 21:00 each night until 04:00 the following morning. There will also be further tunnel closures at night from Monday 12th until Friday 16th September 2022 to allow pavement works to be undertaken – see photograph below.

Works being progressed at the interface with the Jack Lynch Tunnel.

This week's progress update shows the ongoing works along Link E/A which will provide the new free flow link from the M8 southbound to the N25 eastbound.
