

# Dunkettle Progress Update

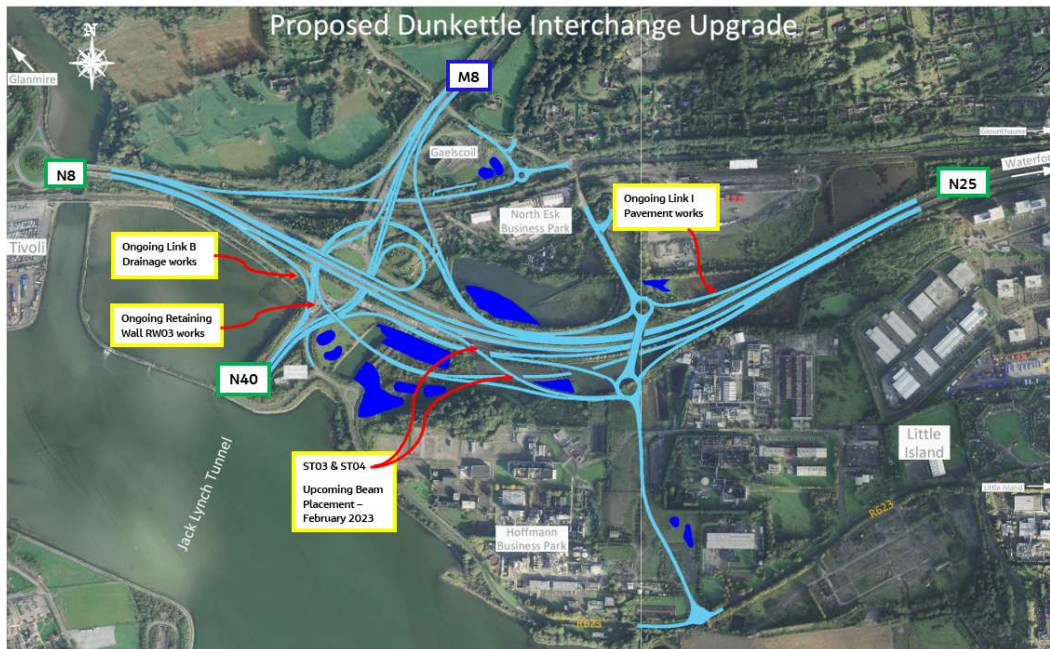

## *20th January 2023*

Twitter

Website

- Motorists are again reminded that speed control measures, coupled with CCTV monitoring are in place across the site and will remain in place over the coming months.

- The localised lane restrictions impacting the short right-hand lane on the N40 northbound immediate approach to the Interchange Roundabout will continue into the early days of next week. These works are in association with a proposed new Retaining Wall RW03 at this location – see photograph below. No significant disruption to traffic is anticipated.

**Ongoing Works at Retaining Wall RW03.**

- Surfacing works are continuing at Link I – see photograph below. We hope to complete the surfacing works at this location next week, with the focus then switching to the N25 area.

Ongoing pavement works at Link I.

- We intend to place the beams at Structures ST03 & ST04 during February 2023 – see photograph below. No disruption to traffic is anticipated as these works are offline.

**Structure St03 and St04 south of the N25.**

- General roadworks are underway at Link B – see photograph below. We still hope to open Link B & Link I to traffic before the end of February 2023 – exact dates will be notified in advance via the weekly newsletter.

Ongoing works at Link B.

- In overall terms, the works remain on track for completion by the due date of February 2024.

This week's video shows the ongoing works alongside the N25 westbound between Structures St01 – St05 inclusive.
