[Website](#)

- Motorists are again reminded that speed control measures, coupled with CCTV monitoring are in place across the site and will remain in place over the coming months.

- Bridge beams were placed as planned at Structure St03 this week – see photograph below. All of the bridge beams required on the project have now been placed.

Final set of Bridge Beams being placed at Structure St03.

- Over the course of this week, we have completed the surfacing works on the N25 (both eastbound and westbound) from Structure St01 to the eastern tie in – see photograph below. The current traffic management measures in these areas will be adjusted over the coming week or so particularly in the N25 eastbound direction.

Surfacing works completed east of Structure St01.

- Also, over the coming weeks, surfacing works will continue in the N25 median area with the target of progressing as far as the existing Interchange bridge by early May 2023 – see photograph below.

Preparatory works being progressed in advance of upcoming pavement works in the N25 central median.

- Offline works will continue (including surfacing works) on a number of links over the coming period including Links B, C, F, J, K, L & M – see photograph below.

Works being progressed on Link F alongside the N25 eastbound.

This week's video shows the ongoing works on Link F which will ultimately form the new free flow link from the N8/N25 Eastbound to the Jack Lynch Tunnel.
