

# Dunkettle Progress Update

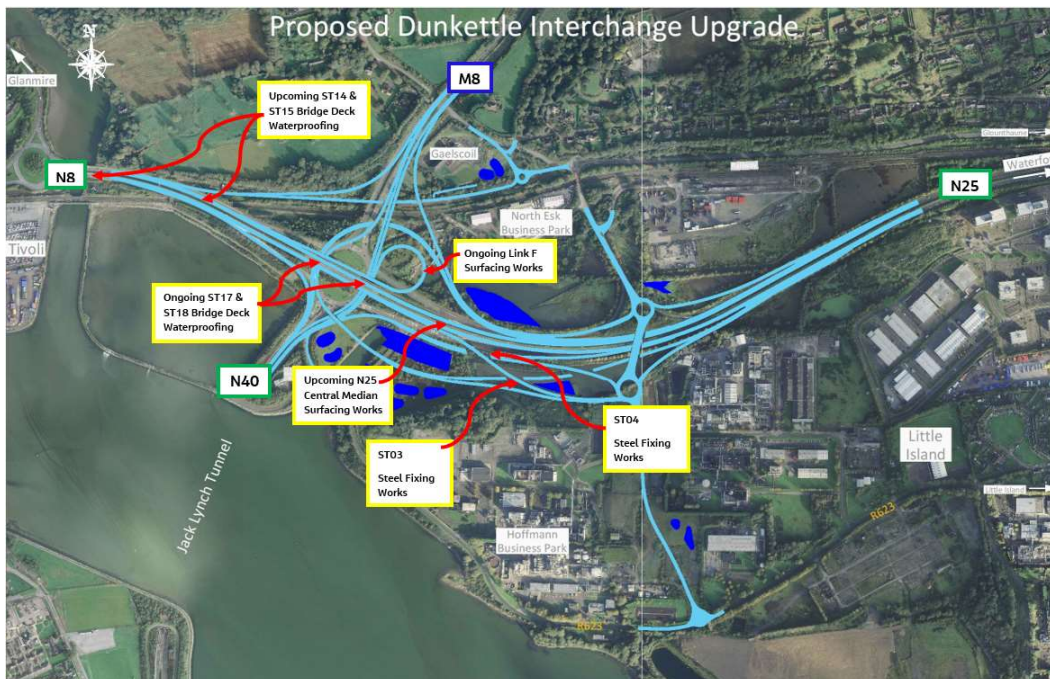

## *10th March 2023*

Twitter

Website

- Motorists are again reminded that speed control measures, coupled with CCTV monitoring are in place across the site and will remain in place over the coming months.

- Steel fixing works for Structures ST03 & ST04 are progressing well on site – see photograph below. Dates for the casting of these bridge decks will be established over the coming period.

**Steel fixing works ongoing on site for Structures ST03 & ST04 alongside the N25 westbound.**

- The bridge deck waterproofing of the existing structures at the Interchange Roundabout, Structures ST17 & ST18 (as highlighted on the layout plan above) is being renewed as part of the Dunkettle Interchange Works – see photograph below. This waterproofing renewal will also be carried out at Structures ST14 & ST15 as per the layout plan above.

**Waterproofing works ongoing on site at the existing structures at the Interchange Roundabout.**

- Surfacing works this week have been mainly focused offline on Link F which will ultimately form the new free flow link from the N8 eastbound to the Jack Lynch Tunnel – see photograph below.

Surfacing works being undertaken at Link F.

- Over the coming weeks, the focus from a surfacing point of view will be mainly on the N25 central median area and also on the proposed new link roads south of the N25 Links C, K & J – see photograph below.

Preparatory works ongoing for the upcoming N25 central median pavement.

**This week's video shows the ongoing works on the northern side of the Dunkettle Interchange Scheme.**
