

# Dunkettle Progress Update

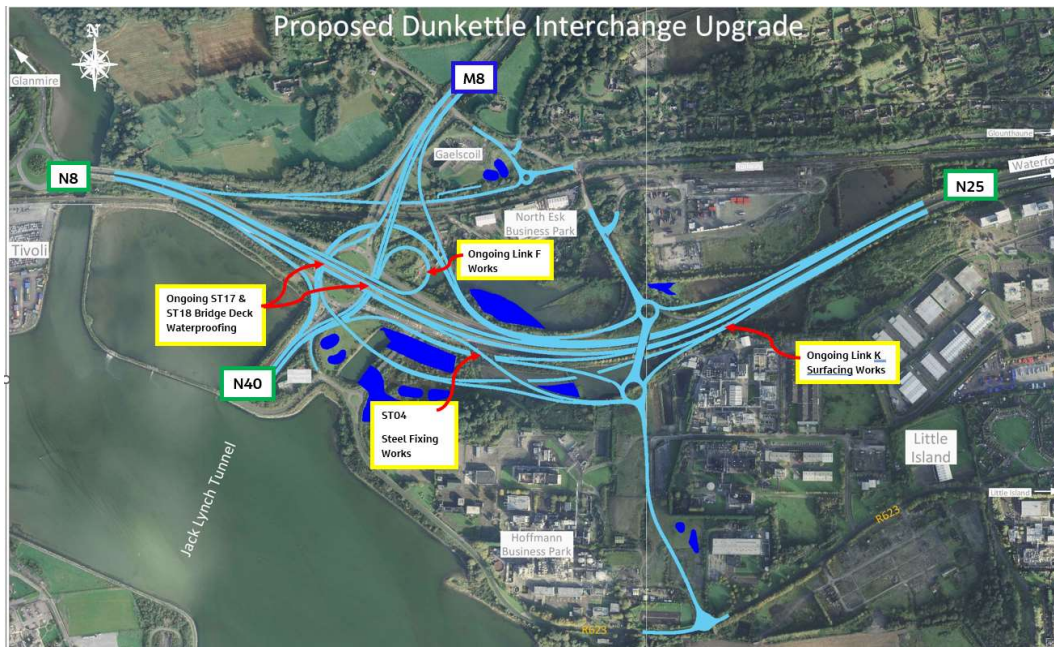

## *16th March 2023*

Twitter

Website

- We are circulating this week's update today as the site will be fully closed tomorrow for St. Patrick's Day.

- Works will continue over the coming period in the area of the Interchange overbridges associated with the construction of what will ultimately be the new Link Road F alongside the N25 Eastbound – see photograph below. In addition to the Link F works in this area, we are taking the opportunity to complete necessary maintenance works to both of the existing structures at this location.

**Works ongoing at Link F alongside the N25 eastbound.**

- From a structures point of view, steel fixing works are now underway on Structures ST03 & ST04 – see photograph below.

**Steel fixing ongoing alongside the N25 westbound diverge to the Interchange Roundabout.**

- From a surfacing point of view works are currently focused on the proposed Link K diverge from the N25 westbound – see photograph below. Over the coming days the surfacing works will focus on the N25 central median.

Pavement works ongoing for Link K alongside the N25 westbound.

**This week's video shows the ongoing works, along the N25 Westbound, on the Structures on the southern side of the Dunkettle Interchange Upgrade Scheme.**
