

Dunkettle Progress Update

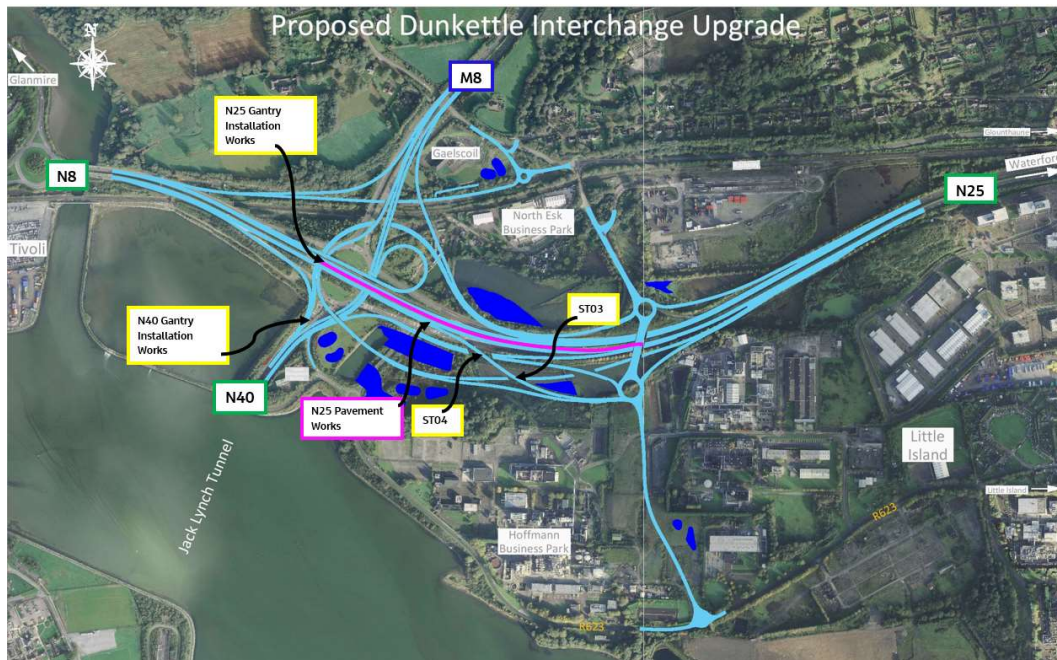

05th May 2023

Twitter

Website

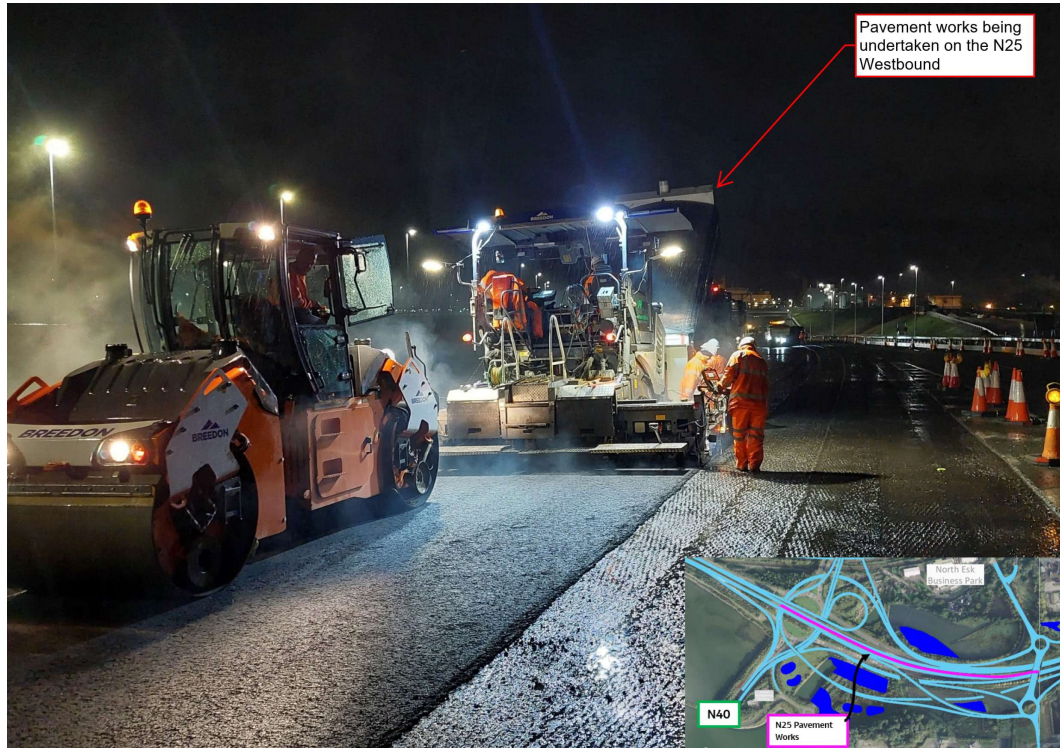

- Motorists are again reminded that speed control measures, coupled with CCTV monitoring are in place across the site and will remain in place over the coming months.

- From a Structures point of view, there is a significant focus at present on completing Structures ST03 and ST04 - see photograph below. We hope to finish both Structures before the end of this month to facilitate the opening of a number of further road links during June 2023.

Ongoing works at Structures ST03 and ST04.

- Surfacing works are currently being progressed under night-time working focused on the N25 westbound currently (see photograph below), with the focus to switch to the N25 eastbound next week. We hope to complete the N25 surfacing works in the area east of the Interchange Structures before the end of this month.

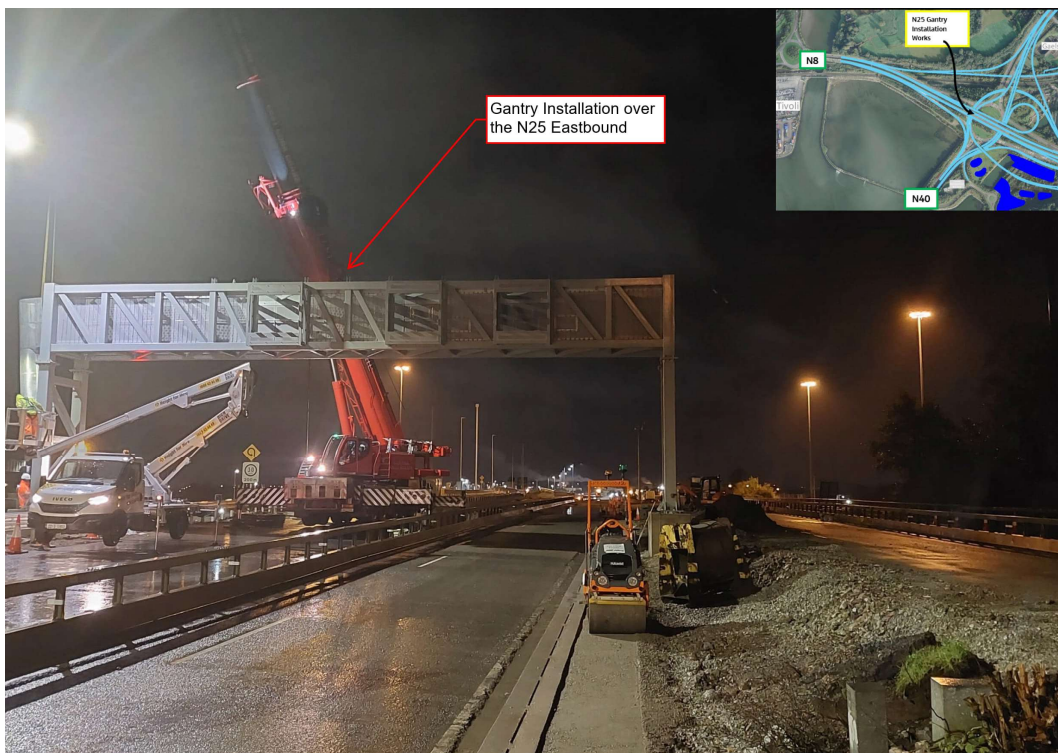

Pavement Works being undertaken on the N25 Westbound under night-time working.

- In preparation for the upcoming link openings, signage gantries are being erected across the site under night-time working. To date, new gantries have been erected on the N40 approach to the Interchange Roundabout and on the N25 eastbound - see photographs below. Night-time working will continue, on an intermittent basis under this heading for a number of weeks.
