

Dunkettle Progress Update

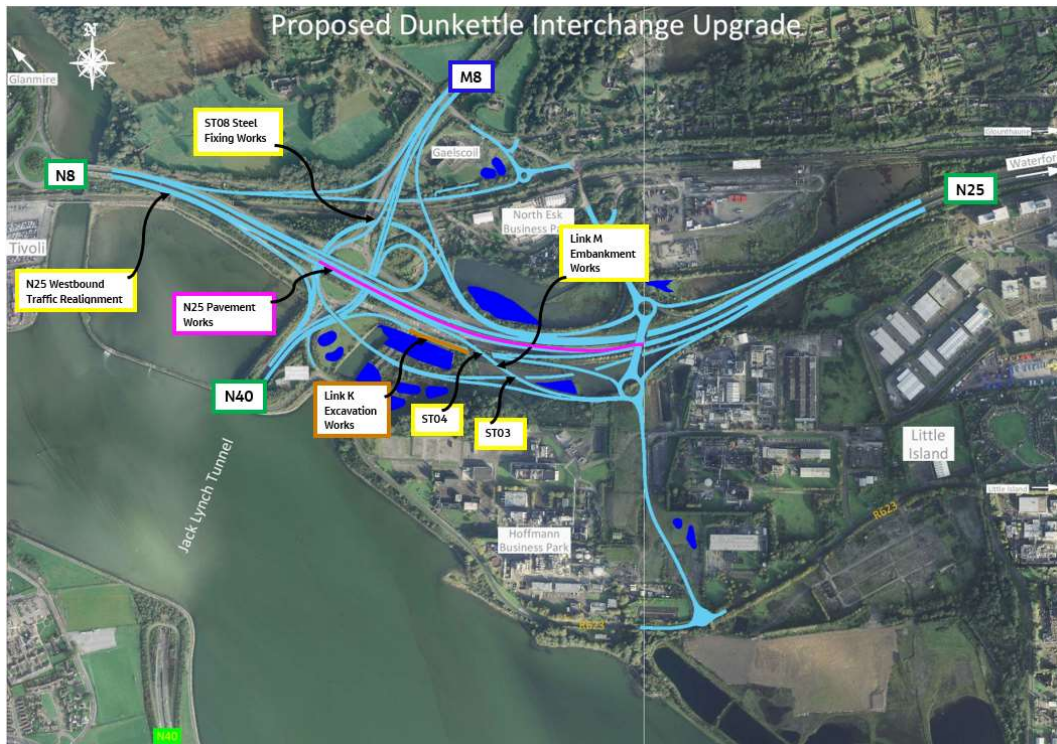

12th May 2023

Twitter

Website

- A minor realignment of the running lanes on the N25 Westbound approach to the Glanmire Roundabout was progressed under night-time working last night, Thursday 11th May 2023. The lane 2 closure on the N25 Westbound has been extended further west towards the Glanmire Roundabout – see photograph below.

The realigned running lanes on the N25 Westbound approach to the Glanmire Roundabout.

- From a Structures point of view, the focus remains on the completion of Structures ST03 & ST04. In addition to the structures works, the embankment between the two structures is also progressing well – see photograph below.

Embankment construction works ongoing between ST03 & ST04.

- Surfacing works are continuing under night time working on the N25 Westbound. We hope to complete the N25 westbound as far as the existing Interchange Structures over the coming days – see photograph below. Thereafter, the focus will switch to the N25 Eastbound, working East from the Interchange Structures.

Surfacing works being undertaken on the N25 Westbound in the vicinity of the Interchange Roundabout.

- The remaining earthworks on the project are now limited to localised areas, soft ground was encountered in the area of Link K south of the existing N25 Westbound diverge to the Interchange Roundabout and this is currently being removed and replaced with Rockfill material – see photograph below.

Earthworks ongoing on Link K alongside the N25 Westbound.

- Structure ST08 is not scheduled for completion until late summer 2023. However, steel fixing for the bridge deck is currently ongoing alongside the M8 Northbound – see photograph below.

Steel Fixing works ongoing at Structure ST08.

This week's video shows the ongoing works on Link K alongside the N25 westbound
