

# Dunkettle Progress Update

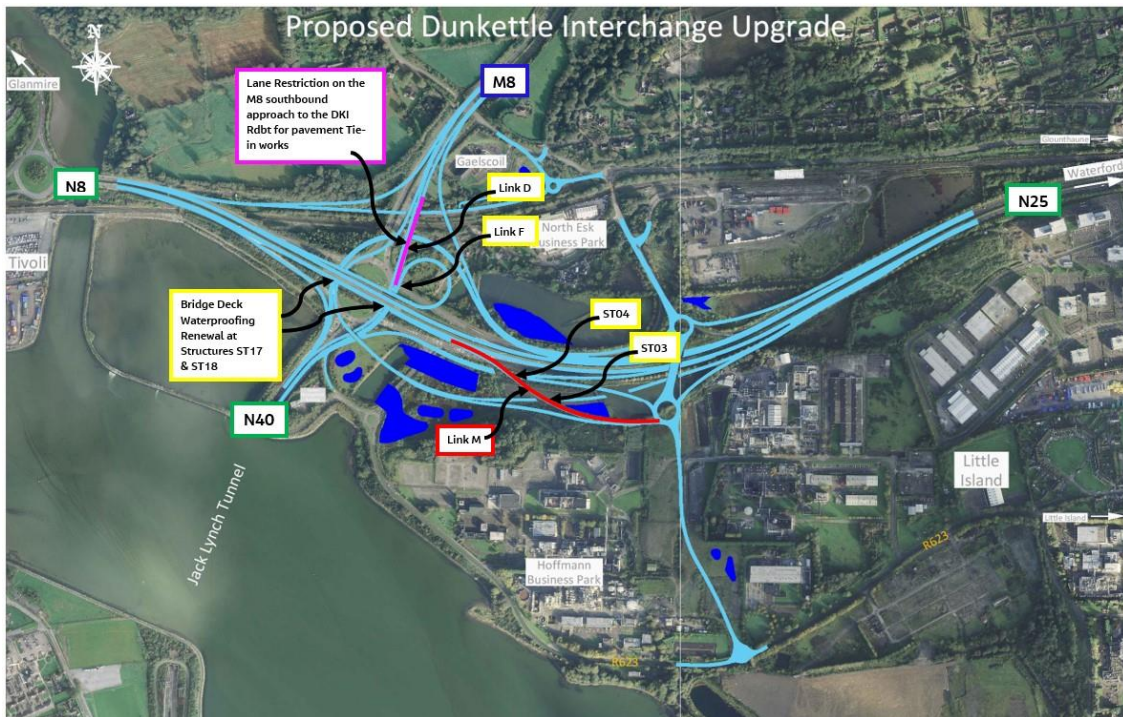

## 28th June 2023

Twitter

Website

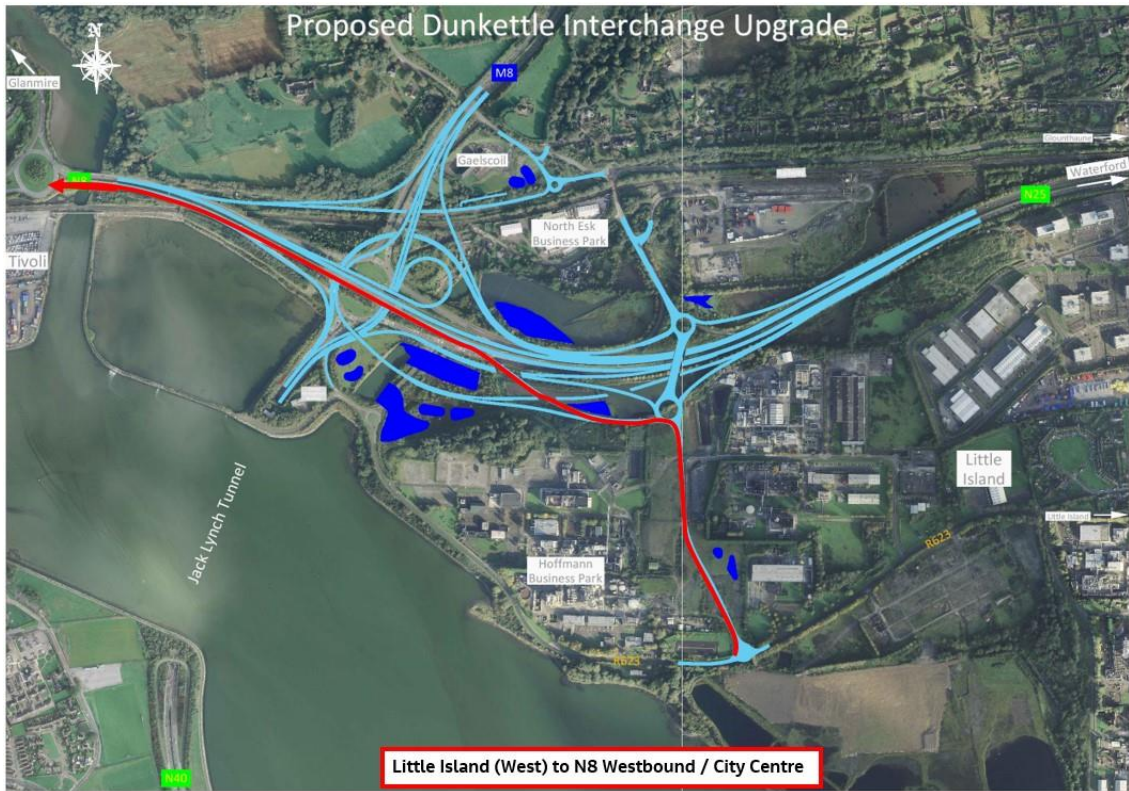

- Motorists are again reminded that speed control measures will be in place across the site over the coming weeks – there will be a particular vigilance in relation to the posted speed limits over the next few months with significant works planned for this period.

- This temporary tie-in will form part of Link M which will provide a link from the Southern Roundabout at the new Interchange to both the N8 Cork City route and the M8 Dublin route – see aerial photo and layout plans below.

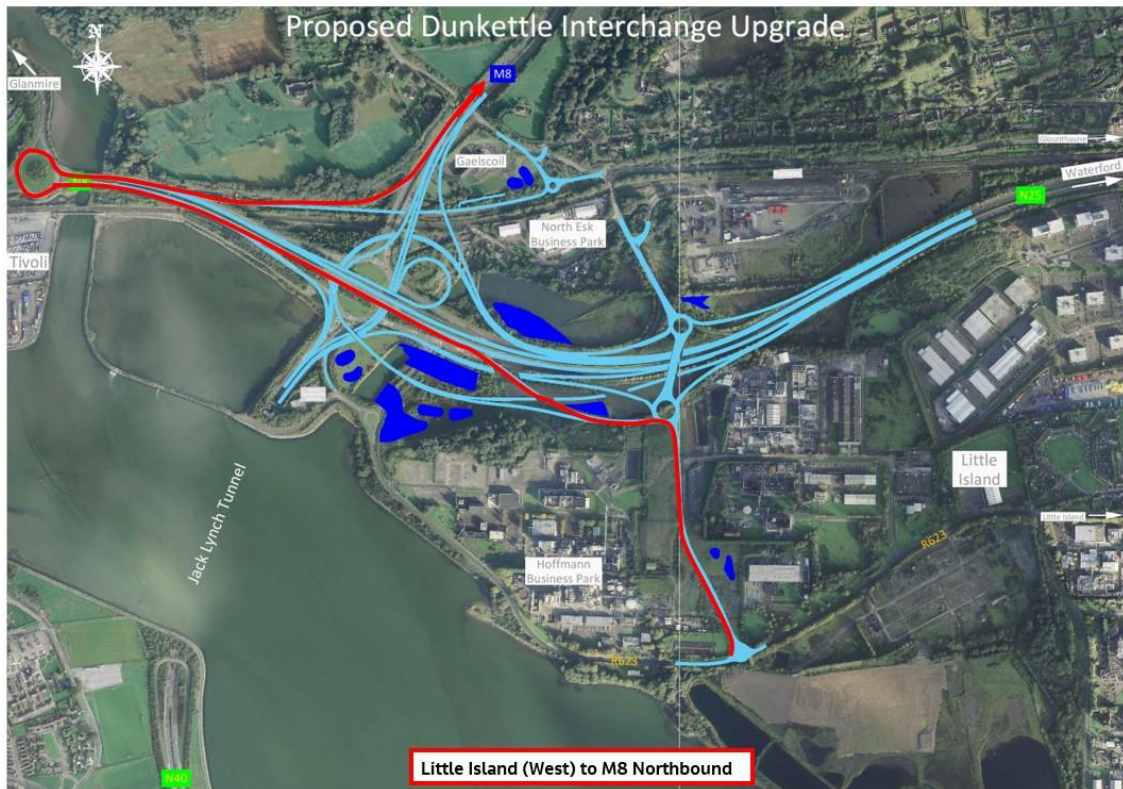

- Works on the N25 Westbound diverge to the Interchange Roundabout were completed as planned over the weekend of Friday 23<sup>rd</sup> June 2023. The co-operation shown by motorists during the weekend working is recognised and appreciated.

**Link M temporary tie in works completed across the N25 Westbound Diverge to the Interchange Roundabout.**

Link M access to the N8 westbound (Cork City) route.

Link M temporary access to the M8 Northbound (Dublin) route.

- An off-peak lane restriction will be in place today on the M8 Southbound approach to the Interchange Roundabout continuing until approximately 2pm. This short term restriction is required to facilitate completion of the surfacing works of sections of Link D (Southbound) and Link F – see photograph below.

**Upcoming pavement works alongside the M8 Southbound approach to the DKI Rdbt for Links D & F.**

- The bridge deck waterproofing will be renewed in lane 1 of the N25 Westbound over the Interchange Roundabout at the location of the existing Structures, ST17 & ST18 over the coming days – see photograph below.

**Preparatory works ongoing at the existing Interchange Structures ST17 & ST18 on the N25 westbound.**

- As noted in last weeks update, we are still working towards the opening of further road links in July 2023 – details to follow in future updates.
