

# Dunkettle Progress Update

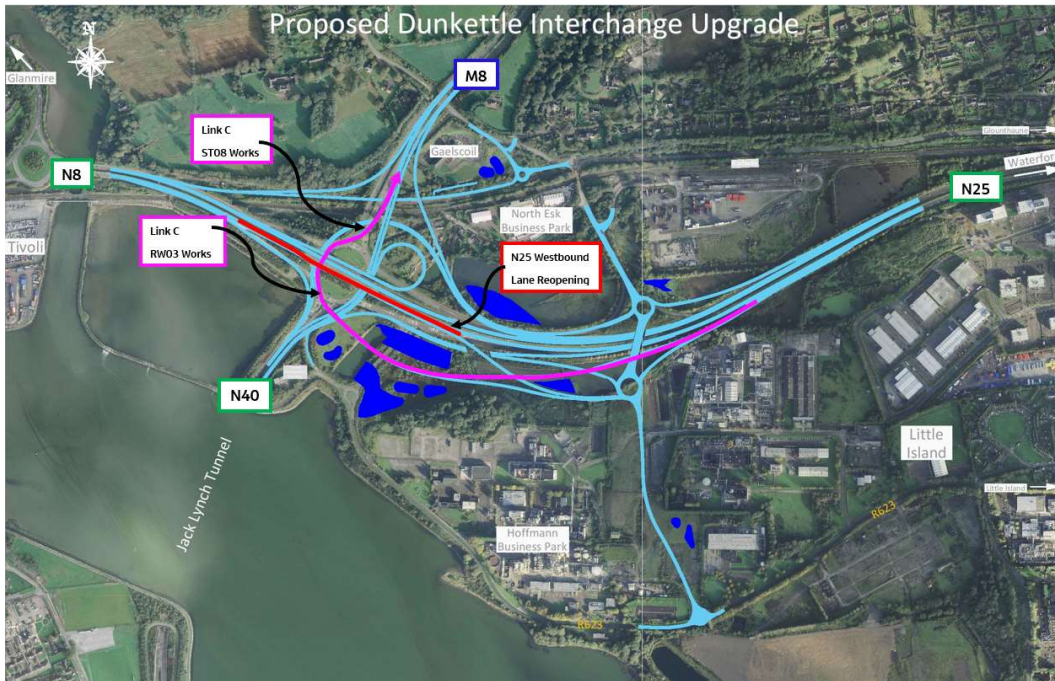

## 27th October 2023

Twitter

Website

- Weather conditions are continuing to impact negatively on the progress of the works. However, we still hope to have virtually all of the temporary traffic management installations removed from the N25 Westbound by week ending Friday 3rd November 2023. Also, we hope to remove a significant element of these temporary traffic management measures under night-time working on tonight Friday 27th October 2023 - see layout plan and photograph below.

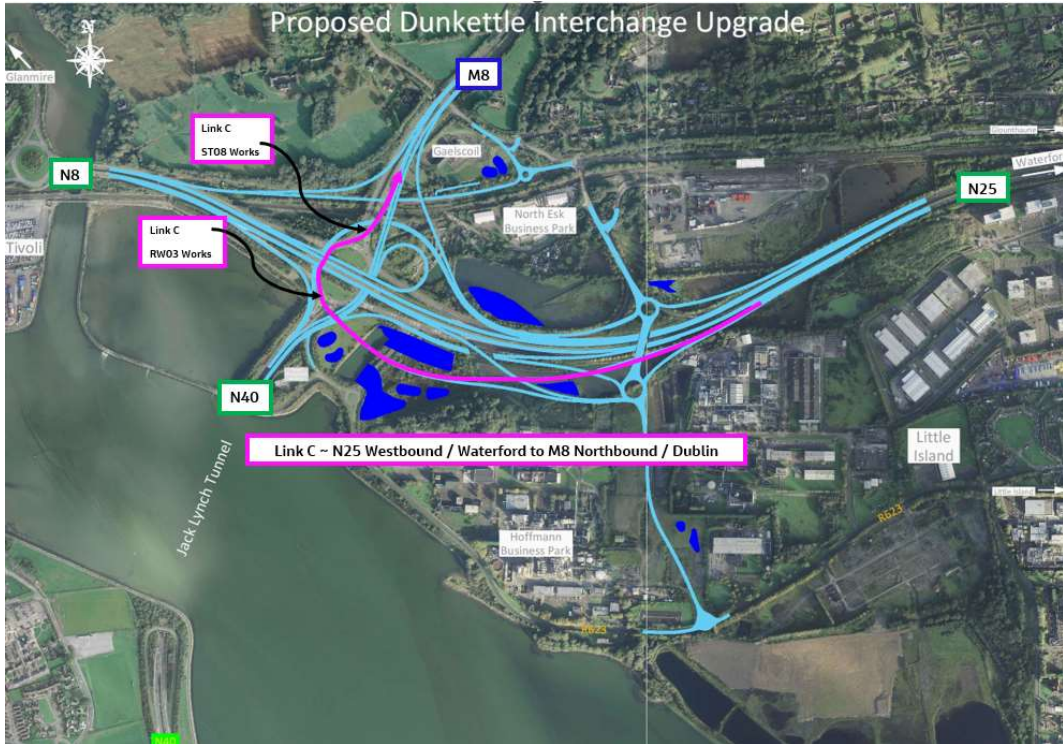

**Extent of the upcoming removal of lane restrictions on the N25 Westbound**

### Upcoming removal of lane restrictions on the N25 Westbound

- Works associated with the completion of Link C will continue for a number of months. Works associated with the new Retaining Wall, RW03, required between existing Link A and proposed Link C, are continuing - see photograph below.

**Link C - New free flow link road from the N25 Westbound/Waterford to the M8 Northbound/Dublin currently under construction**

**Steel fixing works being progressed at Retaining Wall RW03**

- Also, Link C works at Structure ST08 are proceeding with a current focus on completion of the installation of precast parapets to protect the Cork-Midleton railway line - see photograph below.

**Installation of parapets at Structure ST08 West under night-time working**

- Despite the adverse weather conditions over recent months, works remain on track for completion by the due date of February 2024.
