

Dunkettle Progress Update

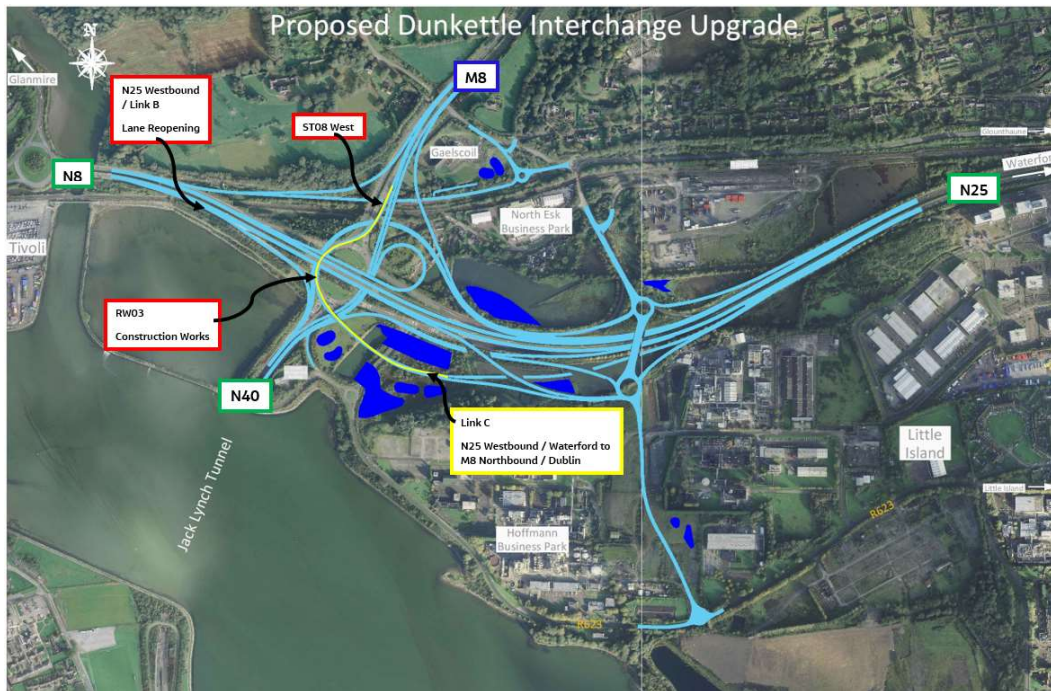

03rd November 2023

Twitter

Website

- In the period since the previous update, we have now largely completed works on the N25 Westbound which necessitate lane restrictions - see photograph below. The timings of the traffic lights at the Tivoli (Glanmire) Roundabout are currently being reviewed to optimise traffic flow in the new layout.

Current lane configuration at Link B / N25 Westbound merge

- The main works focus will continue to be on the completion of Link C over the coming months. At present, works are continuing on the new Retaining Wall, RW03, which is required to address the level difference between the existing Link A and the proposed adjoining Link C - see photograph below.

RW03 currently under construction

- Works are also continuing on the installation of the concrete safety parapet at Structure ST08 (West) under night-time working - see photograph below. We expect that this aspect of the works will be completed before the end of November 2023.

Installation of parapets at Structure ST08 (West)

- In overall terms, works remain on track for completion by the due date of February 2024.
