Dunkettle Progress Update
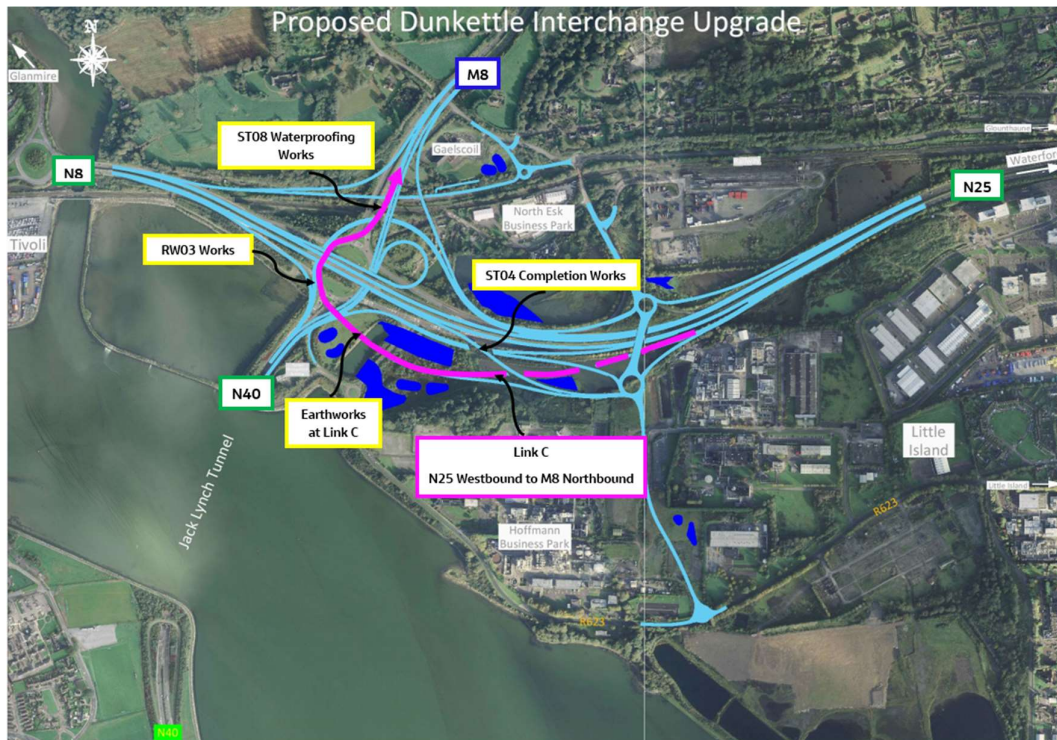

08th December 2023

Twitter   Website

Proposed Dunkettle Interchange Upgrade
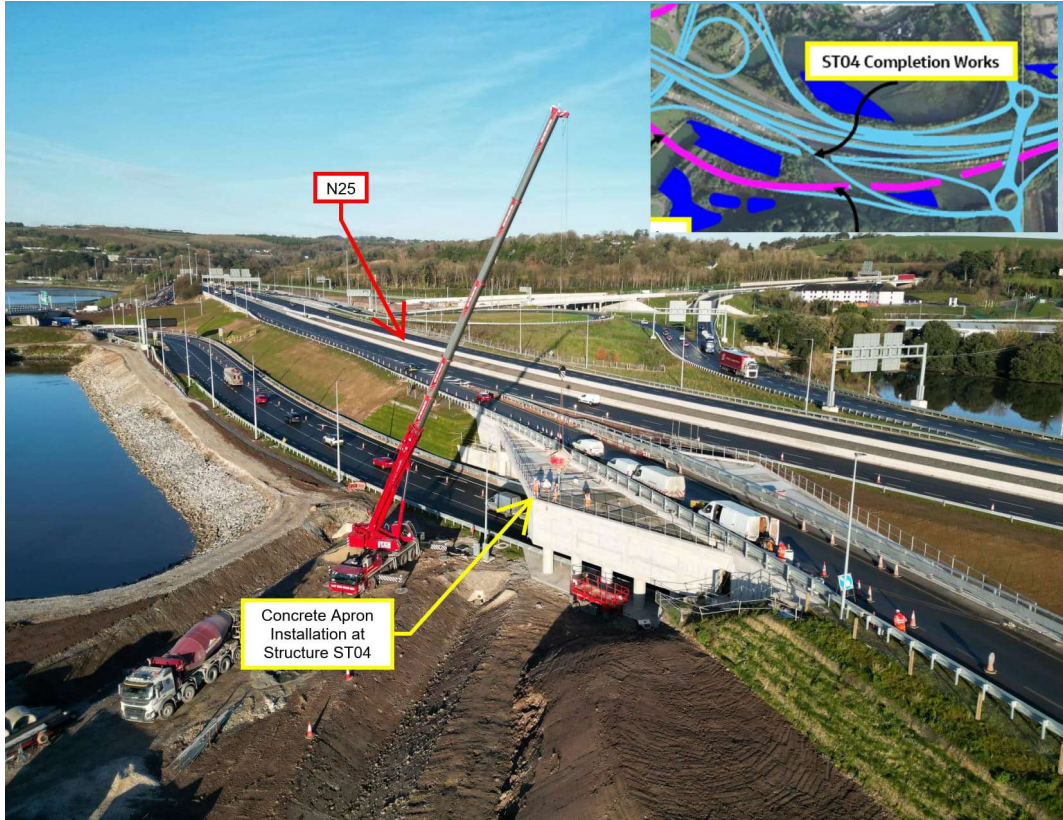

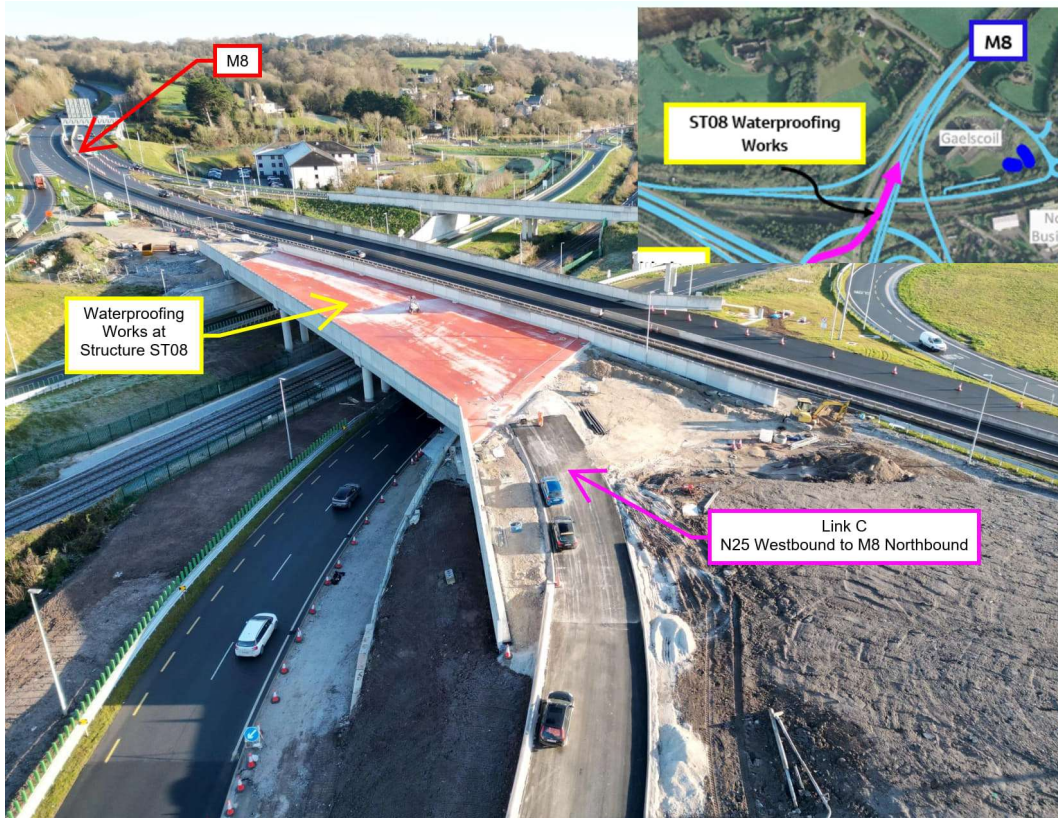

- Works associated with Structures on the Scheme are approaching substantial completion. Concrete aprons at Structure ST04 are currently being completed and waterproofing of the bridge deck at Structure ST08 has been completed – see photographs below.
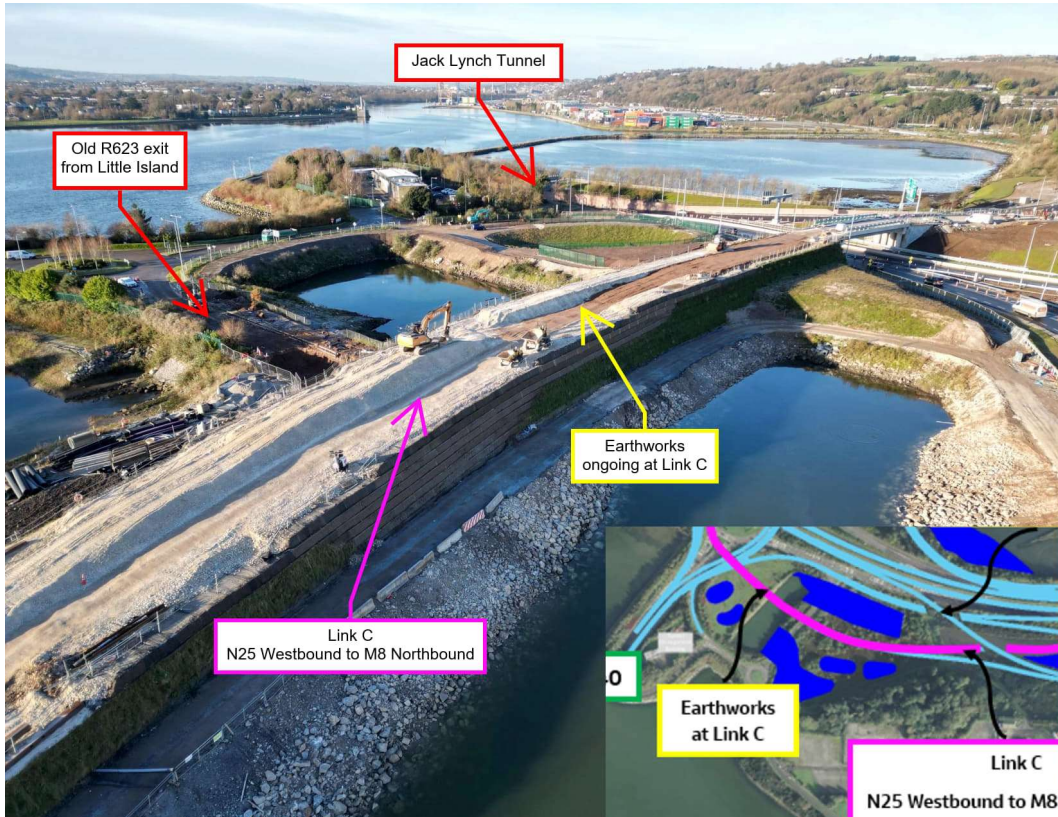

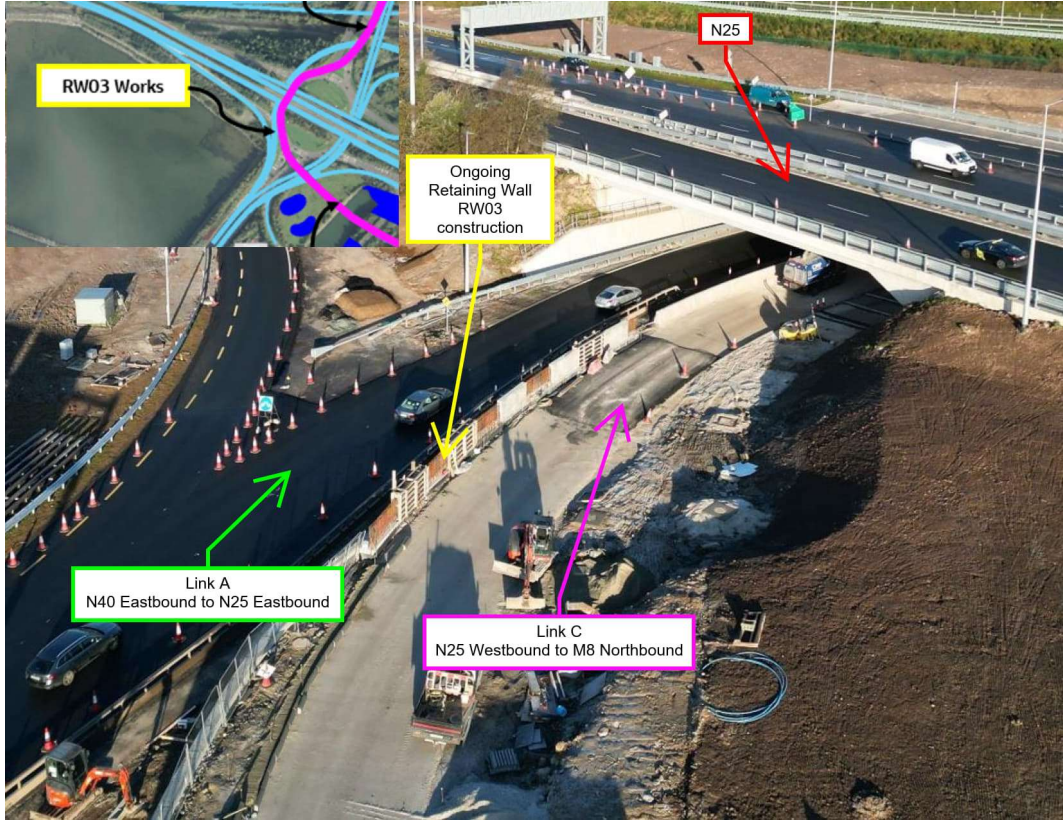

Completion works at Structure ST04

Completion of waterproofing at Structure ST08

- Earthworks on Link C at the crossing point with the old R623 are approaching substantial completion with pavement layer works currently getting underway – see photograph below.
Link C Earthworks at the crossing point with the old R623.

- Also on Link C, the Retaining Wall, RW03, between Link C and Link A is progressing well and we hope to reach substantial completion under this heading during week ending Friday the 15th of December 2023 – see photograph below.

RW03 Works

N25

Ongoing
Retaining Wall
RW03
construction

Link A
N40 Eastbound to N25 Eastbound

Link C
N25 Westbound to M8 Northbound

Ongoing Retaining Wall, RW03, construction at Link C

This week's Progress Update video shows the ongoing works on Link C and Link P which will form the new free flow links from the N25 / Little Island to the M8 Northbound / Dublin
