

Dunkettle Progress Update

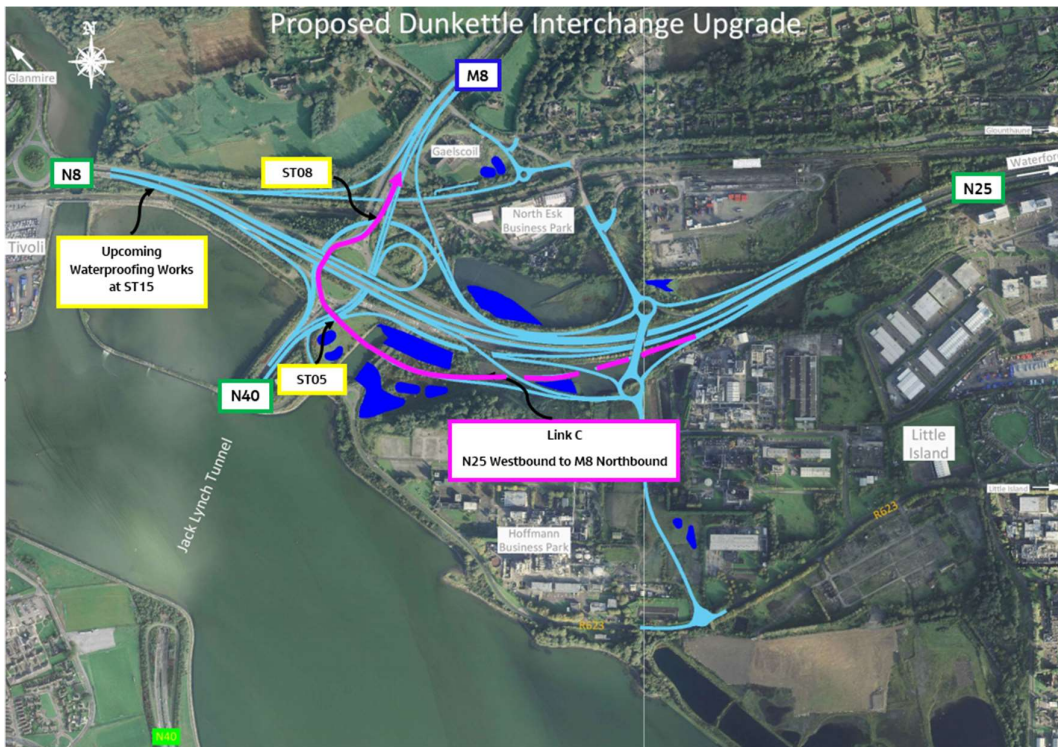

05th January 2024

Twitter

Website

- The Contractor, John Sisk & Sons (Holdings) Ltd, remobilised to site on Wednesday the 03rd of January 2024 and works remain focused on completion of Link C in the area between Structure ST05 and ST08 – see photograph below.

Current Works Areas for Completion of Link C

- There are no daytime lane closures planned over the coming period, however, lane closures will be in place under night-time working on both the N25 Eastbound and N25 Westbound during week commencing Monday the 08th of January 2024. These lane closures are required to facilitate completion of drainage works in these areas – it is not anticipated that the works will lead to any disruption to traffic.

- We also hope to take advantage of the Tunnel closures planned for the early nights of week commencing Monday the 08th of January 2024 and we will be installing signage on the road links north of the Tunnel during the period of the closures.

- We hope to complete waterproofing works at Structure ST15 (see photograph below) in the eastbound direction during week commencing Monday the 15th of January 2024. Details of proposed arrangements associated with these works will be provided in next week's update.

Area highlighted shows the extent of bridge deck waterproofing required

- From a programme point of view, works remain on track for completion by the due date of February 2024.
