- There are still a number of remaining work items to be completed and these will be progressed over the coming period. Any works which necessitate lane closures will generally be carried out under night-time working in order to minimise disruption to traffic. During this week surfacing works have been completed in various areas of the site under night-time working.

- A video has been prepared setting out the Project-specific challenges faced on the Dunkettle Interchange Upgrade. This video is available on the homepage of the Project website: [www.dunkettle.ie](http://www.dunkettle.ie).

- We have also prepared a slideshow/video showing the evolution of various areas of the Scheme over the Construction period. The link to access this content is provided below.

- Future Updates will be on an as-required basis but the next Update will continue the weekly sequence and will be issued on Friday the 23rd of February 2024.
